

CITATION REPORT

List of articles citing

Variations in observable lid wiper epitheliopathy (LWE) staining patterns in wearers of silicone hydrogel lenses

DOI: 10.1016/j.clae.2015.05.004

Contact Lens and Anterior Eye, 2015, 38, 471-6.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
