

CITATION REPORT

List of articles citing

The carbon footprint of traditional woodfuels

DOI: 10.1038/nclimate2491

Nature Climate Change, 2015, 5, 266-272.

Source: <https://exaly.com/paper-pdf/61768805/citation-report.pdf>

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
272	Tackling biomass scarcity [From vicious to virtuous cycles in sub-Saharan Africa. 2015 , 15, 1-8		12
271	The socioeconomic and environmental impacts of wood energy value chains in Sub-Saharan Africa: a systematic map protocol. 2015 , 4,		23
270	Environmental Burden of Traditional Bioenergy Use. 2015 , 40, 121-150		56
269	The Economics of Household Air Pollution. 2015 , 7, 81-108		48
268	Direct Energy Consumption Associated Emissions by Rural-to-Urban Migrants in Beijing. 2015 , 49, 13708-15		42
267	The firewood dilemma: Human health in a broader context of well-being in Chile. <i>Energy for Sustainable Development</i> , 2015 , 28, 75-87	5.4	28
266	Global patterns and trends of wood harvest and use between 1990 and 2010. <i>Ecological Economics</i> , 2015 , 119, 326-337	5.6	24
265	The El Niño-La Niña cycle and recent trends in supply and demand of net primary productivity in African drylands. 2016 , 138, 111-125		19
264	Universal access to electricity in Burkina Faso: scaling-up renewable energy technologies. <i>Environmental Research Letters</i> , 2016 , 11, 084010	6.2	35
263	Stoves or Sugar? Willingness to Adopt Improved Cookstoves in Malawi. 2016 , 92, 409-419		36
262	Transition of household cookfuels in China from 2010 to 2012. <i>Applied Energy</i> , 2016 , 184, 800-809	10.7	38
261	Sparking development or consuming the countryside? Lao charcoal commodity networks in the Mekong Region. 2016 , 57, 194-206		3
260	Ecosystem services from southern African woodlands and their future under global change. 2016 , 371,		76
259	Inhalation exposure and risk of polycyclic aromatic hydrocarbons (PAHs) among the rural population adopting wood gasifier stoves compared to different fuel-stove users. 2016 , 147, 485-491		22
258	Policy trade-offs between climate mitigation and clean cook-stove access in South Asia. <i>Nature Energy</i> , 2016 , 1,	62.3	56
257	Land use and household energy dynamics in Malawi. <i>Environmental Research Letters</i> , 2016 , 11, 125004	6.2	18
256	Spatiotemporal modeling of fuelwood environmental impacts: Towards improved accounting for non-renewable biomass. 2016 , 82, 241-254		17

255	Validation of MODIS Vegetation Continuous Fields for monitoring deforestation and forest degradation: two cases in Mexico. 2016 , 31, 1019-1031		7
254	Improving woodfuel governance in Burkina Faso: The experts? assessment. 2016 , 57, 1398-1408		15
253	Charcoal as a diversification strategy: The flexible role of charcoal production in the livelihoods of smallholders in central Mozambique. <i>Energy for Sustainable Development</i> , 2016 , 32, 14-21	5-4	45
252	Promoting sustainable local development of rural communities and mitigating climate change: the case of Mexico's Patsari improved cookstove project. 2017 , 140, 63-77		20
251	In-Use Emissions and Estimated Impacts of Traditional, Natural- and Forced-Draft Cookstoves in Rural Malawi. 2017 , 51, 1929-1938		59
250	Key indicators to track current progress and future ambition of the Paris Agreement. <i>Nature Climate Change</i> , 2017 , 7, 118-122	21.4	210
249	Transient climate and ambient health impacts due to national solid fuel cookstove emissions. 2017 , 114, 1269-1274		74
248	Combining an accelerated deployment of bioenergy and land use strategies: Review and insights for a post-conflict scenario in Colombia. 2017 , 73, 159-177		42
247	Greenhouse gas emissions from tropical forest degradation: an underestimated source. 2017 , 12, 3		164
246	Laboratory protocols for testing of Improved Cooking Stoves (ICSs): A review of state-of-the-art and further developments. 2017 , 98, 321-335		32
245	Time-Resolved Particulate Emissions Monitoring of Cookstove Biomass Combustion Using a Tapered Element Oscillating Microbalance. 2017 , 189, 923-936		9
244	Challenges and opportunities of new energy schemes for food security in humanitarian contexts: A selective review. 2017 , 22, 208-219		17
243	A Laboratory Comparison of Emission Factors, Number Size Distributions, and Morphology of Ultrafine Particles from 11 Different Household Cookstove-Fuel Systems. 2017 , 51, 6522-6532		47
242	Spatial Patterns of Market Participation and Resource Extraction: Fuelwood Collection in Northern Uganda. 2017 , 99, 1008-1026		7
241	Switching to efficient technologies in traditional biomass intensive countries: The resultant change in emissions. 2017 , 126, 513-526		12
