

CITATION REPORT

List of articles citing

Orally disintegrating films and mini-tablets-innovative dosage forms of choice for pediatric use

DOI: 10.1208/s12249-015-0313-1
AAPS PharmSciTech, 2015, 16, 234-41.

Version: 2024-04-18

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
