

CITATION REPORT

List of articles citing

Clearance systems in the brain-implications for Alzheimer disease

DOI: 10.1038/nrneurol.2015.119

Nature Reviews Neurology, 2015, 11, 457-70.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
962	Endothelial LRP1 transports amyloid- β (1-42) across the blood-brain barrier. 2016 , 126, 123-36		196
961	Impaired vascular-mediated clearance of brain amyloid beta in Alzheimer's disease: the role, regulation and restoration of LRP1. 2015 , 7, 136		117
960	Physiological amyloid-beta clearance in the periphery and its therapeutic potential for Alzheimer's disease. 2015 , 130, 487-99		114
959	Establishment and Dysfunction of the Blood-Brain Barrier. 2015 , 163, 1064-1078		789
958	AlMetabolism and the Role of APOE in Alzheimer's Disease. 2016 , 06,		0
957	The Emerging Field of Perivascular Flow Dynamics: Biological Relevance and Clinical Applications. 2016 , 18, 63-74		6
956	Intracerebral haemorrhage in Down syndrome: protected or predisposed?. 2016 , 5,		25
955	Resveratrol administration increases Transthyretin protein levels ameliorating AD features- importance of transthyretin tetrameric stability. 2016 , 22, 597-607		24
954	Mechanisms of A β Clearance and Degradation by Glial Cells. 2016 , 8, 160		242
953	New Drugs from Marine Organisms in Alzheimer's Disease. 2015 , 14, 5		41
952	Calcium-Sensing Receptors of Human Neural Cells Play Crucial Roles in Alzheimer's Disease. 2016 , 7, 134		27
951	The amyloid cascade hypothesis: are we poised for success or failure?. 2016 , 139 Suppl 2, 237-252		235
950	Peripheral Inflammation and Alzheimer's Disease: Periodontal Disease. 2016 , 93-106		
949	Simvastatin and atorvastatin facilitates amyloid β protein degradation in extracellular spaces by increasing neprilysin secretion from astrocytes through activation of MAPK/Erk1/2 pathways. 2016 , 64, 952-62		40
948	Pulsed ultrasound expands the extracellular and perivascular spaces of the brain. 2016 , 1646, 543-550		18
947	Relation between plasma and brain lipids. 2016 , 27, 225-32		15
946	Choroidal fissure acts as an overflow device in cerebrospinal fluid drainage: morphological comparison between idiopathic and secondary normal-pressure hydrocephalus. 2016 , 6, 39070		18

- 21 Inhibition of mammalian target of rapamycin complex 1 in the brain microvascular endothelium ameliorates diabetic A β brain deposition and cognitive impairment via the sterol-regulatory element-binding protein 1/lipoprotein receptor-associated protein 1 signaling pathway. ○
- 20 Alleviating the unwanted effects of oxidative stress on A β clearance: a review of related concepts and strategies for the development of computational modelling. **2023**, 12, ○
- 19 Ergothioneine, a dietary antioxidant improves amyloid beta clearance in the neuroretina of a mouse model of Alzheimer's disease. 17, 1
- 18 Aquaporin 4 is differentially increased and dislocated in association with tau and amyloid-beta. **2023**, 321, 121593 ○
- 17 Human-Induced Pluripotent Stem Cell-Based Model of the Blood-Brain at 10 Years: A Retrospective on Past and Current Disease Models. **2023**, ○
- 16 Brain washing and neural health: role of age, sleep, and the cerebrospinal fluid melatonin rhythm. **2023**, 80, 1
- 15 Clinical Management in Alzheimer's Disease in the Era of Disease-Modifying Therapies. **2023**, 25, 121-133 ○
- 14 Unravelling the mechanotransduction pathways in Alzheimer's disease. **2023**, 17, ○
- 13 Neural activity induced by sensory stimulation can drive large-scale cerebrospinal fluid flow during wakefulness in humans. **2023**, 21, e3002035 ○
- 12 Recovery of glymphatic system function in patients with temporal lobe epilepsy after surgery. ○
- 11 Sex-specific age-related changes in glymphatic function assessed by resting-state functional magnetic resonance imaging. ○
- 10 Interrogation of dynamic glucose-enhanced MRI and fluorescence-based imaging reveals a perturbed glymphatic network in Huntington's disease. ○

- 9 Plasma neurodegeneration biomarker concentrations associate with glymphatic and meningeal lymphatic measures in neurological disorders. **2023**, 14,
- 8 Gadolinium-based imaging of the blood brain barrier and brain waste clearance pathways. **2023**, 143-172
- 7 Identifying genetic variants for amyloid β in subcortical vascular cognitive impairment. 15,
- 6 Endocrine Regulation of Microvascular Receptor-Mediated Transcytosis and Its Therapeutic Opportunities: Insights by PCSK9-Mediated Regulation. **2023**, 15, 1268
- 5 Higher order diffusion imaging as a putative index of human sleep-related microstructural changes and glymphatic clearance. **2023**, 120124
- 4 Leveraging the glymphatic and meningeal lymphatic systems as therapeutic strategies in Alzheimer's disease: an updated overview of nonpharmacological therapies. **2023**, 18,
- 3 Proteostasis failure exacerbates neuronal circuit dysfunction and sleep impairments in Alzheimer's disease. **2023**, 18,
- 2 FDA-approved carbonic anhydrase inhibitors reduce amyloid β pathology and improve cognition, by ameliorating cerebrovascular health and glial fitness.
- 1 High affinity of β amyloid proteins to cerebral capillaries: implications in chronic lead exposure-induced neurotoxicity in rats. **2023**, 20,
