

# CITATION REPORT

List of articles citing

**A multicenter multinational study of abdominal candidiasis: epidemiology, outcomes and predictors of mortality**

**DOI: 10.1007/s00134-015-3866-2**  
**Intensive Care Medicine, 2015, 41, 1601-10.**

**Source:** <https://exaly.com/paper-pdf/62062893/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
143	Intra-abdominal candidiasis: it's still a long way to get unquestionable data. <i>Intensive Care Medicine</i> , <b>2015</b> , 41, 1682-4	14.5	13
142	In the Literature. <i>Clinical Infectious Diseases</i> , <b>2016</b> , 63, iii-iv	11.6	
141	What is the role of empirical treatment for suspected invasive candidiasis in non-neutropenic non-transplanted patients in the intensive care unit?-Empiricus strikes back!. <b>2016</b> , 8, E1719-E1722		1
140	Intra-Abdominal Candidiasis: The Importance of Early Source Control and Antifungal Treatment. <b>2016</b> , 11, e0153247		80
139	Candidemia and invasive candidiasis in adults: A narrative review. <b>2016</b> , 34, 21-28		114
138	Antifungal agents for preventing fungal infections in non-neutropenic critically ill patients. <b>2016</b> , CD004920		30
137	Abdominal Sepsis. <b>2016</b> , 18, 23		22
136	[Current aspects of invasive diseases caused by Candida and other yeast fungi]. <b>2016</b> , 33, 133-9		3
