

CITATION REPORT

List of articles citing

Twin methodology in epigenetic studies

DOI: 10.1242/jeb.107151

Journal of Experimental Biology, 2015, 218, 134-9.

Source: <https://exaly.com/paper-pdf/62121188/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
88	Neuropsychology of Art. 2015 ,		7
87	Methylation as an epigenetic source of random genetic effects in the classical twin design. <i>Advances in Genomics and Genetics</i> , 2015 , 305		1
86	Environmental Epigenetics and a Unified Theory of the Molecular Aspects of Evolution: A Neo-Lamarckian Concept that Facilitates Neo-Darwinian Evolution. <i>Genome Biology and Evolution</i> , 2015 , 7, 1296-302	3.9	180
