

The genome of cultivated sweet potato contains *Agrobacterium* expressed genes: An example of a naturally transgenic food crop

Proceedings of the National Academy of Sciences of the United States of America
112, 5844-5849

DOI: [10.1073/pnas.1419685112](https://doi.org/10.1073/pnas.1419685112)
