

CITATION REPORT

List of articles citing

The UK10K project identifies rare variants in health and disease

DOI: 10.1038/nature14962
Nature, 2015, 526, 82-90.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
