

CITATION REPORT

List of articles citing

Virtual reality as an empirical research tool
Exploring user experience in a real building and a
corresponding virtual model

DOI: 10.1016/j.compenvurbsys.2015.09.006

Computers, Environment and Urban Systems, 2015, 54, 363-3

Source: <https://exaly.com/paper-pdf/62747184/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
218	Sex Differences in Using Spatial and Verbal Abilities Influence Route Learning Performance in a Virtual Environment: A Comparison of 6- to 12-Year Old Boys and Girls. 2016 , 7, 258		31
217	The Enactive Approach to Architectural Experience: A Neurophysiological Perspective on Embodiment, Motivation, and Affordances. 2016 , 7, 481		31
216	Lights, building, action: Impact of default lighting settings on occupant behaviour. 2016 , 48, 212-223		32
215	A fedearated E-learning cloud system based on mixed reality. 2016 ,		1
214	Applying HCI Methods and Concepts to Architectural Design (Or Why Architects Could Use HCI Even If They Don't Know It). 2016 , 17-35		4
213	Integrating Procedural Modelling Process and Immersive VR Environment for Architectural Design Education. 2017 , 104, 03007		11
212	Simulated Environments in Architecture Education. Improving the Student Motivation. 2017 , 235-243		4
211	Use of immersive virtual environments for occupant behaviour monitoring and data collection. 2017 , 10, 484-498		22
210	Special electronic issue: "The use of virtual reality for environmental representations" <i>Computers, Environment and Urban Systems</i> , 2017 , 62, 97-98	5.9	3
209	Immersive environment for improving the understanding of architectural 3D models: Comparing user spatial perception between immersive and traditional virtual reality systems. 2017 , 84, 292-303		113
208	Psychological and physiological human responses to simulated and real environments: A comparison between Photographs, 360° Panoramas, and Virtual Reality. 2017 , 65, 398-409		103
207	A Systematic Review of the Potential Application of Virtual Reality Within a User Pre-occupancy Evaluation. 2017 , 612-620		4
206	Geospatial Google Street View with Virtual Reality: A Motivational Approach for Spatial Training Education. 2017 , 6, 261		19
205	Does the type of presentation medium impact assessments of the built environment? An examination of environmental usability ratings across three modes of presentation. 2018 , 56, 30-35		5
204	Assessing Visual Search Performance in Ocular Compared to Cerebral Visual Impairment Using a Virtual Reality Simulation of Human Dynamic Movement. 2018 ,		4
203	Humanising the Digital. 2018 , 325-335		
202	A Usability Study of an Immersive Virtual Reality Platform for Building Design Review: Considerations on Human Factors and User Interface. 2018 ,		6

201	Perception of density by pedestrians on urban paths: an experiment in virtual reality. 2018 , 1-19	6
200	Preferences for a lake landscape: Effects of building height and lake width. 2018 , 70, 22-33	22
199	Parent reports of wayfinding by their children with Down syndrome. 2018 , 43, 483-493	8
198	Evidence and affect: employing virtual reality to probe what's missing from evidence-based design research. 2018 , 2, 285-304	2
197	Effectiveness of Virtual Reality in Participatory Urban Planning. 2018 ,	12
196	Toward a Computer Vision Perspective on the Visual Impact of Vegetation in Symmetries of Urban Environments. 2018 , 10, 666	3
195	Affective computing in virtual reality: emotion recognition from brain and heartbeat dynamics using wearable sensors. 2018 , 8, 13657	124
194	An exploratory study of perceived safety in a neighborhood park using immersive virtual environments. 2018 , 35, 72-81	24
193	Potential and challenges of immersive virtual environments for occupant energy behavior modeling and validation: A literature review. 2018 , 19, 302-319	18
