Citation Report
List of articles citing

Predictive genomics: a cancer hallmark network framework for predicting tumor clinical phenotypes using genome sequencing data

DOI: 10.1016/j.semcancer.2014.04.002
Seminars in Cancer Biology, 2015, 30, 4-12.

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
