

CITATION REPORT

List of articles citing

The first trimester: prediction and prevention of the great obstetrical syndromes

DOI: 10.1016/j.bpobgyn.2014.09.006

Best Practice and Research in Clinical Obstetrics and Gynaecology, 2015, 29, 183-93.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
23	Measuring circulating placental RNAs to non-invasively assess the placental transcriptome and to predict pregnancy complications. <i>Prenatal Diagnosis</i> , 2016 , 36, 997-1008	3.2	23
22	Risk for cardiovascular disease after pre-eclampsia: differences in Canadian women and healthcare provider perspectives on knowledge sharing. <i>Health Sociology Review</i> , 2017 , 26, 128-142	2.3	4
21	Simply providing information—Negotiating the ethical dilemmas of obstetric ultrasound, prenatal testing and selective termination of pregnancy. <i>Feminism and Psychology</i> , 2017 , 27, 72-91	1.3	9
20	Simple approach based on maternal characteristics and mean arterial pressure for the prediction of preeclampsia in the first trimester of pregnancy. <i>Journal of Perinatal Medicine</i> , 2017 , 45, 843-849	2.7	12
19	Review: Bio-compartmentalization of microRNAs in exosomes during gestational diabetes mellitus. <i>Placenta</i> , 2017 , 54, 76-82	3.4	15
18	Enhanced First Trimester Screening for Trisomy 21 with Contingent Cell-Free Fetal DNA: A Comparative Performance and Cost Analysis. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2017 , 39, 742-749	1.3	8
17	Prediction models for the risk of gestational diabetes: a systematic review. <i>Diagnostic and Prognostic Research</i> , 2017 , 1, 3	5.5	29
16	High Fasting Plasma Glucose during Early Pregnancy: A Review about Early Gestational Diabetes Mellitus. <i>Journal of Diabetes Research</i> , 2017 , 2017, 8921712	3.9	34
15	Early first trimester peripheral blood cell microRNA predicts risk of preterm delivery in pregnant women: Proof of concept. <i>PLoS ONE</i> , 2017 , 12, e0180124	3.7	19
14	FIGO analysis of research priorities in hyperglycemia in pregnancy. <i>Diabetes Research and Clinical Practice</i> , 2018 , 145, 5-14	7.4	11
13	Biomarkers of Metabolic and Cardiovascular Risk in Gestational Diabetes. 2018 , 147-159		
12	Circulating MicroRNAs as Biomarkers of Gestational Diabetes Mellitus: Updates and Perspectives. <i>International Journal of Endocrinology</i> , 2018 , 2018, 6380463	2.7	31
11	First trimester prenatal screening biomarkers and gestational diabetes mellitus: A systematic review and meta-analysis. <i>PLoS ONE</i> , 2018 , 13, e0201319	3.7	28
10	The Relationship of Pregnancy-Associated Plasma Protein A and Human Chorionic Gonadotropin with Adverse Pregnancy Outcomes: A Prospective Study. <i>Journal of Obstetrics and Gynecology of India</i> , 2019 , 69, 412-419	1	2
9	First trimester glycosylated hemoglobin as a predictor of gestational diabetes mellitus. <i>International Journal of Gynecology and Obstetrics</i> , 2019 , 145, 158-163	4	13
8	Early screening for gestational diabetes mellitus is not associated with improved pregnancy outcomes: an observational study including 9795 women. <i>Diabetes and Metabolism</i> , 2019 , 45, 465-472	5.4	15
7	Glycated haemoglobin in the first trimester: A predictor of gestational diabetes mellitus in pregnant Asian Indian women. <i>Diabetes Research and Clinical Practice</i> , 2020 , 159, 107953	7.4	10

6	MicroRNAs isolated from peripheral blood in the first trimester predict spontaneous preterm birth. <i>PLoS ONE</i> , 2020 , 15, e0236805	3.7	6
5	Placental Microarray Profiling Reveals Common mRNA and lncRNA Expression Patterns in Preeclampsia and Intrauterine Growth Restriction. <i>International Journal of Molecular Sciences</i> , 2020 , 21,	6.3	15
4	Early pregnancy prediction of gestational diabetes mellitus risk using prenatal screening biomarkers in nulliparous women. <i>Diabetes Research and Clinical Practice</i> , 2020 , 163, 108139	7.4	5
