

CITATION REPORT

List of articles citing

Neuroprotection for ischaemic stroke: current status and challenges

DOI: 10.1016/j.pharmthera.2014.09.003

Pharmacology & Therapeutics, 2015, 146, 23-34.

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
170	Low dose Hsp90 inhibitor 17AAG protects neural progenitor cells from ischemia induced death. 2014 , 8, 353-62		17
169	A novel caffeoyl triterpene attenuates cerebral ischemic injury with potent anti-inflammatory and hypothermic effects. 2015 , 133, 93-103		7
168	A Systems Biology Perspective on the Molecular Mechanisms Underlying the Therapeutic Effects of Buyang Huanwu Decoction on Ischemic Stroke. 2015 , 18, 313-25		28
167	Pharmacological therapy of acute ischaemic stroke: Achievements and problems. <i>Pharmacology & Therapeutics</i> , 2015 , 153, 79-89	13.9	34
166	Prehospital stroke care: telemedicine, thrombolysis and neuroprotection. 2015 , 15, 753-61		6
165	Cannabinoids in Neurodegenerative Disorders and Stroke/Brain Trauma: From Preclinical Models to Clinical Applications. <i>Neurotherapeutics</i> , 2015 , 12, 793-806	6.4	85
164	Energy metabolism of synaptosomes from different neuronal systems of rat cerebellum during aging: a functional proteomic characterization. <i>Neurochemical Research</i> , 2015 , 40, 172-85	4.6	7
163	Functional Proteomics as Marker for Neurological and Psychiatric Disorders: The First Application to Dementia for an Immediate Future. 2016 , 7,		1
162	Evaluation of Gene Therapy as an Intervention Strategy to Treat Brain Injury from Stroke. 2016 , 9, 34		14
161	The Molecular Pathway of Argon-Mediated Neuroprotection. 2016 , 17,		16
160	Argon mediates protection by interleukin-8 suppression via a TLR2/TLR4/STAT3/NF- κ B pathway in a model of apoptosis in neuroblastoma cells <i>in vitro</i> and following ischemia-reperfusion injury in rat retina <i>in vivo</i> . 2016 , 138, 859-73		35
159	Sex-specific Association Between Uric Acid and Outcomes After Acute Ischemic Stroke: A Prospective Study from CATIS Trial. <i>Scientific Reports</i> , 2016 , 6, 38351	4.9	9
158	Targeting the SUMO pathway for neuroprotection in brain ischaemia. 2016 , 1, 101-107		27
157	Endovascular Stroke Management: Key Elements of Success. 2016 , 42, 170-7		29
156	Dimethyl Fumarate and Monomethyl Fumarate Promote Post-Ischemic Recovery in Mice. 2016 , 7, 535-547		69
155	Stem Cell-Based Therapies for Ischemic Stroke: Preclinical Results and the Potential of Imaging-Assisted Evaluation of Donor Cell Fate and Mechanisms of Brain Regeneration. <i>Medicinal Research Reviews</i> , 2016 , 36, 1080-1126	14.4	49
154	Minocycline Suppresses NLRP3 Inflammasome Activation in Experimental Ischemic Stroke. 2016 , 23, 230-238		47

153	Protective effect of delta opioid receptor agonist (D-Ala2, D-Leu5) enkephalin on permanent focal cerebral ischemia in rats. 2016 , 27, 749-54		8
152	Effect of desipramine and fluoxetine on energy metabolism of cerebral mitochondria. 2016 , 330, 326-34		32
151	Auricular vagus nerve stimulation promotes functional recovery and enhances the post-ischemic angiogenic response in an ischemia/reperfusion rat model. 2016 , 97, 73-82		27
150	Azilsartan, an angiotensin II type 1 receptor blocker, attenuates tert-butyl hydroperoxide-induced endothelial cell injury through inhibition of mitochondrial dysfunction and anti-inflammatory activity. 2016 , 94, 48-56		24
149	Single photon emission computed tomography imaging of cerebral blood flow, blood-brain barrier disruption, and apoptosis time course after focal cerebral ischemia in rats. 2016 , 11, 117-26		22
148	Intranasal guanosine administration presents a wide therapeutic time window to reduce brain damage induced by permanent ischemia in rats. 2016 , 12, 149-59		10
147	Neuroprotective effects of <i>Tilia americana</i> var. <i>mexicana</i> on damage induced by cerebral ischaemia in mice. 2016 , 30, 2115-9		2
146	Activation of the ATF6 branch of the unfolded protein response in neurons improves stroke outcome. 2017 , 37, 1069-1079		47
145	Effects of Neuroprotectants Before and After Stroke: Statins and Anti-hypertensives. <i>Springer Series in Translational Stroke Research</i> , 2017 , 349-399	0.1	2
144	Spermidine preconditioning ameliorates laurate-induced brain injury by maintaining mitochondrial stability. 2017 , 39, 248-258		7
143	Mitochondrial energy metabolism of rat hippocampus after treatment with the antidepressants desipramine and fluoxetine. 2017 , 121, 30-38		35
142	Opening a New Time Window for Treatment of Stroke by Targeting HDAC2. 2017 , 37, 6712-6728		41
