Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

34	Generic and disease-adapted cardiovascular risk scores as predictors of atherosclerosis progression in SLE. 2023 , 10, e000864	0

- 33 Growth Differentiation Factor 15 and Risk of Bleeding Events: The Atherosclerosis Risk in Communities Study. ○
- 32 Harnessing digital health to optimise the delivery of guideline-based cardiac rehabilitation during COVID-19: an observational study. **2023**, 10, e002211 ○
- 31 Cardiovascular risk prediction - a systems medicine approach. ○
- 30 Barriers and facilitators for smoking cessation in chronic smokers with atherosclerotic cardiovascular disease enrolled in a randomized intervention trial: A qualitative study. 14, ○
- 29 Brain Vascular Health in ALS Is Mediated through Motor Cortex Microvascular Integrity. **2023**, 12, 957 ○
- 28 Resistin Contribution to Cardiovascular Risk in Chronic Kidney Disease Male Patients. **2023**, 12, 999 ○
- 27 Prevalence rates of chronic kidney disease and its association with cardiometabolic factors and cardiovascular diseases. SIMETAP-CKD study. **2023**, ○
- 26 Maximizing cardiovascular benefits of fish consumption within the One Health approach: Should current recommendations be revised?. **2023**, ○
- 25 Obesity in Adults: Position Statement of Polish Association for the Study on Obesity, Polish Association of Endocrinology, Polish Association of Cardiometabolism, Polish Psychiatric Association, Section of Metabolic and Bariatric Surgery of the Association of Polish Surgeons, and the College of Family Physicians in Poland. **2023**, 15, 1641 ○
- 24 Women with type 2 diabetes have LDL cholesterol levels higher than those of men, regardless of their treatment and their cardiovascular risk level. **2023**, ○
- 23 A proposal from the Liver Forum for the management of comorbidities in nonalcoholic steatohepatitis therapeutic trials. **2023**, ○
- 22 Role of the advanced nurse practitioner within the vascular team: A qualitative study of vascular physicians and nurses. 11, ○
- 21 Cardiovascular Risk, Risk Knowledge, and Related Factors in Patients. ○
- 20 Cardiovascular Disease and Cardiac Imaging in Inflammatory Arthritis. **2023**, 13, 909 ○
- 19 Identification and Management of Atherosclerotic Cardiovascular Disease Risk in South Asian Populations in the U.S.. **2023**, 2, 100258 ○
- 18 The Indicative Effects of Apolipoproteins on organic Erectile Dysfunction Diagnosed by the Nocturnal Penile Tumescence and Rigidity Test. ○
- 17 Comprehensiveness of cardiac rehabilitation program in Korea: a nation-wide survey result. **2023**, 23, ○
- 16 Hospital-Level Variation in Cardiac Rehabilitation After Myocardial Infarction in Japan During Fiscal Years 2014-2015 Using the National Database. **2023**, ○

- 15 The Effects of 6-Month Aqua Aerobics Training on Cardiometabolic Parameters in Perimenopausal Women: A Randomized Controlled Trial. **2023**, 12, 588
- 14 LDL cholesterol targets rarely achieved in familial hypercholesterolemia patients: A sex and gender-specific analysis. **2023**,
- 13 Person-Centered Cardiology. **2023**, 501-538
- 12 Hypertension. **2023**, 241-258
- 11 Eating more sardines instead of fish oil supplementation: Beyond omega-3 polyunsaturated fatty acids, a matrix of nutrients with cardiovascular benefits. 10,
- 10 Weight self-perception and weight loss attempts in Chinese cardiovascular patients and non-cardiovascular patients: evidence from a population-based study. **2023**, 23,
- 9 Intensive blood pressure control for patients aged over 60: A meta-analysis of the SPRINT, STEP, and ACCORD BP randomized controlled trials. **2023**,
- 8 Triglycerid level as a potential marker of residual cardiovascular risk and its relation to HeartScore. **2023**, 1-9
- 7 NT-proCNP levels predict higher atherosclerotic cardiovascular risk profile in patients with proliferative diabetic retinopathy.
- 6 The impact of traditional cardiovascular risk factor control on 7-year follow-up atherosclerosis progression in systemic lupus erythematosus.
- 5 Asking informed consent may lead to significant participation bias and suboptimal cardiovascular risk management in learning healthcare systems. **2023**, 23,
- 4 Cardiovascular prevention: sometimes dreams can come true. **2023**, 25, C44-C48
- 3 Association of oily fish and nonoily fish intakes with all-cause mortality and cause-specific mortality: a large population-based prospective study. **2023**, 21,
- 2 Comparative analysis of level of evidence and class of recommendation for 50 clinical practice guidelines released by the European Society of Cardiology from 2011 to 2022. **2023**,
- 1 Computational clustering reveals differentiated coronary artery calcium progression at prevalent levels of pulse wave velocity by classifying high-risk patients. 10,
