

CITATION REPORT

List of articles citing

CO tolerance of Pt/FeO catalyst in both thermal catalytic H oxidation and electrochemical CO oxidation: the effect of Pt deficit electron state

DOI: 10.1039/c6cp05289d

Physical Chemistry Chemical Physics, 2016, 18, 29607-29615.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
