CITATION REPORT List of articles citing

microRNA expression profile in human coronary smooth muscle cell-derived microparticles is a source of biomarkers

DOI: 10.1016/j.arteri.2016.05.005 Clnica E Investigacin En Arteriosclerosis, 2016, 28, 167-77.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
