

CITATION REPORT

List of articles citing

High-throughput discovery of novel developmental phenoty

DOI: 10.1038/nature19356
Nature, 2016, 537, 508-514.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
870	A bioimage informatics platform for high-throughput embryo phenotyping. 2018 , 19, 41-51		6
869	Increased burden of deleterious variants in essential genes in autism spectrum disorder. 2016 , 113, 15054-15059		3
868	Calcium at the Center of Cell Signaling: Interplay between Endoplasmic Reticulum, Mitochondria, and Lysosomes. 2016 , 41, 1035-1049		258
867	Three-dimensional microCT imaging of mouse development from early post-implantation to early postnatal stages. 2016 , 419, 229-236		27
866	Semantic Technology. 2016 ,		
865	Editorial to Novel development in mouse phenotyping 2014-2016, 20, 1-2		
864	Genome wide conditional mouse knockout resources. 2016 , 20, 3-12		3
863	Targeted integration of genes in <i>Xenopus tropicalis</i> . 2017 , 55, e23006		5
862	Decreased STARD10 Expression Is Associated with Defective Insulin Secretion in Humans and Mice. 2017 , 100, 238-256		50
861	Of mice and CRISPR: The post-CRISPR future of the mouse as a model system for the human condition. 2017 , 18, 187-193		29
860	Heat Shock Proteins and Maternal Contribution to Oogenesis and Early Embryogenesis. 2017 , 222, 1-27		2
859	Protein-arginine deiminase 2 suppresses proliferation of colon cancer cells through protein citrullination. 2017 , 108, 713-718		24
858	A novel imaging method for correlating 2D light microscopic data and 3D volume data based on block-face imaging. 2017 , 7, 3645		11
857	Mitochondrial Calcium Handling in Physiology and Disease. 2017 , 982, 25-47		47
856	How mice are indispensable for understanding obesity and diabetes genetics. 2017 , 24, 83-91		21
855	Targeting ligand-receptor interactions for development of cancer therapeutics. 2017 , 38, 62-69		21
854	Dry ice is a reliable substrate for the distribution of frozen mouse spermatozoa: A multi-centric study. 2017 , 96, 49-57		12
