

CITATION REPORT

List of articles citing

Vaginal progesterone decreases preterm birth < 34 weeks of gestation in women with a singleton pregnancy and a short cervix: an updated meta-analysis including data from the OPPTIMUM study

DOI: 10.1002/uog.15953

Ultrasound in Obstetrics and Gynecology, 2016, 48, 308-17.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
