Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1887	Predictors of elevational biodiversity gradients change from single taxa to the multi-taxa community level. 2016 , 7, 13736		141
1886	Fluvial biotopes influence macroinvertebrate biodiversity in South-East Asian tropical streams. 2016 , 7, e01479		7
1885	Tree succession across a seasonally dry tropical forest and forest-savanna ecotone in northern Minas Gerais, Brazil. 2016 , rtw091		5
1884	Long-term dynamics in microbial eukaryotes communities: a palaeolimnological view based on sedimentary DNA. 2016 , 25, 5925-5943		39
1883	Ecosystem services of allotment and community gardens: A Leipzig, Germany case study. 2017 , 23, 44-53		71
1882	Niche specialization of bacteria in permanently ice-covered lakes of the McMurdo Dry Valleys, Antarctica. 2017 , 19, 2258-2271		18
1881	Interpreting beta-diversity components over time to conserve metacommunities in highly dynamic ecosystems. 2017 , 31, 1459-1468		45
1880	Vertical distribution of saproxylic beetles within snag trunks retained in plantation forests. 2017 , 21, 7-14		1
1879	Shifts among Eukaryota, Bacteria, and Archaea define the vertical organization of a lake sediment. 2017 , 5, 41		37
1878	Native arthropods on exotic sand dune flowers: consideration of sample size and number for investigating rare species and sparse communities. 2017 , 11, 691-701		0
1877	Changes in the nature of environmental limitation in two forest herbs during two decades of forest succession. 2017 , 28, 883-892		7
1876	Recreational freshwater fishing drives non-native aquatic species richness patterns at a continental scale. 2017 , 23, 692-702		23
1875	Thermal barriers constrain microbial elevational range size via climate variability. 2017 , 19, 3283-3296		7
1874	Plant community reassembly on restored semi-natural grasslands lags behind the assembly of the arbuscular mycorrhizal fungal communities. 2017 , 212, 196-208		8
1873	Tropical insect diversity: evidence of greater host specialization in seed-feeding weevils. 2017 , 98, 2180-2190		17
1872	Amphibian species and functional diversity as indicators of restoration success in tropical montane forest. 2017 , 26, 2569-2589		35
1871	Influence of forest structure upon the diversity and composition of edaphic diplopods. 2017 , 21, 297-306		5

1870	Environment-induced changes in selective constraints on social learning during the peopling of the Americas. 2017 , 7, 44431	13
1869	How does the replacement of native forest by exotic forest plantations affect the diversity, abundance and trophic structure of saproxylic beetle assemblages?. 2017 , 405, 246-256	22
1868	Farm and landscape factors interact to affect the supply of pollination services. 2017 , 250, 113-122	43
1867	Wood-rotting basidiomycetes associated with declining native trees in timber-harvesting compartments of the Garden Route National Park of South Africa. 2017 , 42, 947-963	7
1866	Behavior, brain, and morphology in a complex insect society: trait integration and social evolution in the exceptionally polymorphic ant <i>Pheidole rhea</i> . 2017 , 71, 1	14
1865	Can intestinal microbiota be associated with non-intestinal cancers?. 2017 , 7, 12722	14
1864	A Distinctive and Host-Restricted Gut Microbiota in Populations of a Cactophilic <i>Drosophila</i> Species. 2017 , 83,	23
1863	Rarefaction and extrapolation of species richness using an area-based Fisher's logseries. 2017 , 7, 10066-10078	7
1862	Functional redundancy modifies species-area relationship for freshwater phytoplankton. 2017 , 7, 9905-9913	13
1861	Genotypic diversity in root-endophytic fungi reflects efficient dispersal and environmental adaptation. 2017 , 26, 4618-4630	11
1860	Historical biome distribution and recent human disturbance shape the diversity of arbuscular mycorrhizal fungi. 2017 , 216, 227-238	47
1859	Islands, mainland, and terrestrial fragments: How isolation shapes plant diversity. 2017 , 7, 6904-6917	13
1858	Marine dock pilings foster diverse, native cryptobenthic fish assemblages across bioregions. 2017 , 7, 7069-7079	12
1857	Fate and stability of polyamide-associated bacterial assemblages after their passage through the digestive tract of the blue mussel <i>Mytilus edulis</i> . 2017 , 125, 132-138	13
1856	Community assessment techniques and the implications for rarefaction and extrapolation with Hill numbers. 2017 , 7, 11213-11226	26
1855	Polymorphic fungus-specific microsatellite markers of <i>Bactrospora dryina</i> reveal multiple colonizations of trees. 2017 , 49, 561-577	2
1854	Structural heterogeneity affects raptor assemblages and niche characteristics in mixed-grass ecosystems. 2017 , 8, e01907	2
1853	Evaluation of Malaise and Yellow Pan Trap Performance to Assess Velvet Ant (Hymenoptera: Mutillidae) Diversity in a Neotropical Savanna. 2017 , 46, 353-361	3

1852	Tropical fish community does not recover 45 years after predator introduction. 2017 , 98, 412-424	36
1851	Insights for the Conservation of Native Tree Species Gleaned From the Advance Regeneration Community in a Seasonally Dry Tropical Landscape. 2017 , 10, 194008291771422	5
1850	Diversity and biogeography of land snails (Mollusca, Gastropoda) in the limestone hills of Perak, Peninsular Malaysia. 2017 , 1-94	21
1849	Changes in Species Diversity Patterns and Spatial Heterogeneity during the Secondary Succession of Grassland Vegetation on the Loess Plateau, China. 2017 , 8, 1465	15
1848	Independently founded populations of <i>Sclerotinia sclerotiorum</i> from a tropical and a temperate region have similar genetic structure. 2017 , 12, e0173915	19
1847	Author contributions to ecological publications: What does it mean to be an author in modern ecological research?. 2017 , 12, e0179956	14
1846	Sparse trees and shrubs confers a high biodiversity to pastures: Case study on spiders from Transylvania. 2017 , 12, e0183465	14
1845	Species inventory of aquatic macrophytes in the last undammed stretch of the Upper Paran River, Brazil. 2017 , 29,	9
1844	Environmental heterogeneity explains species turnover but not nestedness in fish assemblages of a Neotropical basin. 2017 , 29,	9
1843	Nectar-living yeasts of a tropical host plant community: diversity and effects on community-wide floral nectar traits. 2017 , 5, e3517	20
1842	Conservation value of low-productivity forests measured as the amount and diversity of dead wood and saproxylic beetles. 2018 , 28, 1011-1019	8
1841	Modelling the responses of Australian subtropical rainforest birds to changes in environmental conditions along elevational gradients. 2018 , 43, 490-501	3
1840	The combined impacts of experimental defaunation and logging on seedling traits and diversity. 2018 , 285,	4
1839	Turnover and nestedness in subtropical dung beetle assemblages along an elevational gradient. 2018 , 24, 1277-1290	38
1838	COMPOSITION, STRUCTURE AND BIODIVERSITY OF TREES IN TROPICAL MONTANE CLOUD FOREST PATCHES IN SERRA DO PAPAGAIO STATE PARK, SOUTHEAST BRAZIL. 2018 , 75, 255-284	2
1837	Impact of coal mining on stream biodiversity in the US and its regulatory implications. 2018 , 1, 176-183	35
1836	Cascading effects on bacterial communities: cattle grazing causes a shift in the microbiome of a herbivorous caterpillar. 2018 , 12, 1952-1963	11
1835	A cross-continental comparison of assemblages of seed- and fruit-feeding insects in tropical rain forests: Faunal composition and rates of attack. 2018 , 45, 1395-1407	10

1834	Active versus passive restoration: Recovery of cloud forest structure, diversity and soil condition in abandoned pastures. 2018 , 117, 50-61		27
1833	Anthropogenic disturbance equalizes diversity levels in arbuscular mycorrhizal fungal communities. 2018 , 24, 2649-2659		22
1832	How should we estimate diversity in the fossil record? Testing richness estimators using sampling-standardised discovery curves. <i>Methods in Ecology and Evolution</i> , 2018 , 9, 1386-1400	7.7	41
1831	Effects of land use on arbuscular mycorrhizal fungal communities in Estonia. 2018 , 28, 259-268		16
1830	Venus Flytrap Rarely Traps Its Pollinators. 2018 , 191, 539-546		14
1829	Wild bee abundance declines with urban warming, regardless of floral density. 2018 , 21, 419-428		55
1828	Diversity change during the rise of tetrapods and the impact of the 'Carboniferous rainforest collapse'. 2018 , 285,		33
1827	Ecological traits modulate bird species responses to forest fragmentation in an Amazonian anthropogenic archipelago. 2018 , 24, 387-402		25
1826	Deciphering the associations between soil microbial diversity and ecosystem multifunctionality driven by long-term fertilization management. 2018 , 32, 1103-1116		68
1825	Recurrent patterns of microdiversity in a temperate coastal marine environment. 2018 , 12, 237-252		77
1824	Estimating the response of wildlife communities to coastal dune construction. 2018 , 161, 31-36		1
1823	High Rate of Infection by Only Oncogenic Human Papillomavirus in Amerindians. 2018 , 3,		8
1822	Structure of ground-dwelling arthropod assemblages in vegetation units of Ñea Natural Protegida Península Valdés, Patagonia, Argentina. 2018 , 22, 287-301		5
1821	Predator and prey biodiversity relationship and its consequences on marine ecosystem functioning-interplay between nanoflagellates and bacterioplankton. 2018 , 12, 1532-1542		21
1820	Beta diversity of ant-plant interactions over day-night periods and plant physiognomies in a semiarid environment. 2018 , 156, 69-76		8
1819	Reconciling biodiversity and carbon stock conservation in an Afrotropical forest landscape. 2018 , 4, eaar6603		22
1818	Robust Frankia phylogeny, species delineation and intraspecies diversity based on Multi-Locus Sequence Analysis (MLSA) and Single-Locus Strain Typing (SLST) adapted to a large sample size. 2018 , 41, 311-323		18
1817	Assessing the efficiency of non-parametric estimators of species richness for marine microplankton. 2018 , 40, 230-243		4

1816	Long-term assessment of ichthyoplankton in a large North American river system reveals changes in fish community dynamics. 2018 , 75, 2255-2270	6
1815	Changes to anuran diversity following forest replacement by tree plantations in the southern Atlantic forest of Argentina. 2018 , 424, 529-535	3
1814	Why species delimitation matters for fungal ecology: Colletotrichum diversity on wild and cultivated cashew in Brazil. 2018 , 122, 677-691	17
1813	Chaparral bird community responses to prescribed fire and shrub removal in three management seasons. 2018 , 55, 1615-1625	6
1812	Diversity of macrofaunal Mollusca of the abyssal Vema Fracture Zone and hadal Puerto Rico Trench, Tropical North Atlantic. 2018 , 148, 45-53	6
1811	The role of livestock intensification and landscape structure in maintaining tropical biodiversity. 2018 , 55, 185-194	32
1810	Five decades of dramatic changes in submerged vegetation in Lake Constance. 2018 , 144, 31-37	20
1809	The value of small, natural and man-made wetlands for bird diversity in the east Colombian Piedmont. 2018 , 28, 87-97	4
1808	Elevation modulates how Arctic arthropod communities are structured along local environmental gradients. 2018 , 41, 1555-1565	17
1807	Genetic monitoring of open ocean biodiversity: An evaluation of DNA metabarcoding for processing continuous plankton recorder samples. 2018 , 18, 391-406	43
1806	Soybean cultivation supports a diverse arbuscular mycorrhizal fungal community in central Argentina. 2018 , 124, 289-297	18
1805	LiDAR-derived canopy structure supports the more-individuals hypothesis for arthropod diversity in temperate forests. 2018 , 127, 814-824	16
1804	Importance of Nesting Resources and Soil Conditions for the Recovery of Ant Diversity During Secondary Succession in a Tropical Rainforest. 2018 , 11, 194008291878706	4
1803	Houseflies speaking for the conservation of natural areas: a broad sampling of Muscidae (Diptera) on coastal plains of the Pampa biome, Southern Brazil. 2018 , 62, 292-303	2
1802	Flying between raindrops: Strong seasonal turnover of several Lepidoptera groups in lowland rainforests of Mount Cameroon. 2018 , 8, 12761-12772	14
1801	Assessment of plant species diversity associated with the carob tree (<i>Ceratonia siliqua</i> , Fabaceae) at the Mediterranean scale. 2018 , 151, 185-193	10
1800	Simple does not mean poor: grasslands and forests harbor similar ant species richness and distinct composition in highlands of southern Brazil. 2018 , 18,	5
1799	Amphibian and reptile biodiversity in the semi-arid region of the municipality of Nopala de Villagr�, Hidalgo, Mexico. 2018 , 6, e4202	1

1798	Cervicovaginal Fungi and Bacteria Associated With Cervical Intraepithelial Neoplasia and High-Risk Human Papillomavirus Infections in a Hispanic Population. 2018 , 9, 2533	33
1797	Changes in Soil Arthropod Abundance and Community Structure across a Poplar Plantation Chronosequence in Reclaimed Coastal Saline Soil. 2018 , 9, 644	3
1796	Measuring species diversity in the tropics: a review of methodological approaches and framework for future studies. 2018 , 50, 929-941	18
1795	Table for five, please: Dietary partitioning in boreal bats. 2018 , 8, 10914-10937	39
1794	Littoral chironomids of a large Alpine lake: spatial variation and variables supporting diversity. 2018 , 45	
1793	Decadal effects of thinning on understory light environments and plant community structure in a subtropical forest. 2018 , 9, e02464	12
1792	Changes in Assemblages and Diversity Patterns of Carabidae (Coleoptera) from 1997 to 2014 in a Desalinized, Intensively Cultivated Agricultural Landscape in Northern China. 2018 , 72, 597	1
1791	Living on the edge: the importance of adjacent intermittent habitats in maintaining macroinvertebrate diversity of permanent freshwater marsh systems. 2018 , 8, 312-321	4
1790	Temporal phytoplankton diversity patterns and community structure in a monsoonal region, Oman Seawater (Iranian parts). 2018 , 24, 355-363	3
1789	The mesic savannas of the Bateke Plateau: carbon stocks and floristic composition. 2018 , 50, 868-880	2
1788	A multiscale study of fungal endophyte communities of the foliar endosphere of native rubber trees in Eastern Amazon. 2018 , 8, 16151	24
1787	China's tuberculosis epidemic stems from historical expansion of four strains of Mycobacterium tuberculosis. 2018 , 2, 1982-1992	47
1786	Gut microbiome modulation during treatment of mucositis with the dairy bacterium Lactococcus lactis and recombinant strain secreting human antimicrobial PAP. 2018 , 8, 15072	20
1785	Surveying tropical birds is much harder than you think: a primer of best practices. 2018 , 50, 846-849	12
1784	The diversity of saproxylic insects (Coleoptera, Heteroptera) on four tree species of the Hyrcanian forest in Iran. 2018 , 22, 607-625	5
1783	Sporulation of Frankia spp. as a Determinant of Alder-Symbiont Interactions. 2018 , 84,	8
1782	Farmland bird responses to land abandonment in Western Siberia. 2018 , 268, 61-69	20
1781	Exposure to Yeast Shapes the Intestinal Bacterial Community Assembly in Zebrafish Larvae. 2018 , 9, 1868	23

1780	Relationship Between Bird Diversity and Habitat along a Pine- Oak Successional Forest in Southern Mexico. 2018 ,	
1779	Autoreactive IgG and IgA B Cells Evolve through Distinct Subclass Switch Pathways in the Autoimmune Disease Pemphigus Vulgaris. 2018 , 24, 2370-2380	13
1778	Management practices may lead to loss of arbuscular mycorrhizal fungal diversity in protected areas of the Brazilian Atlantic Forest. 2018 , 34, 50-58	14
1777	Conventional wastewater treatment and reuse site practices modify bacterial community structure but do not eliminate some opportunistic pathogens in reclaimed water. 2018 , 639, 1126-1137	31
1776	Additions to the Vascular Plant Flora of St. Lawrence Island, Alaska: New Records, Rare Species, and Phytogeographic Patterns. 2018 , 120, 1-41	
1775	Minimizing polymerase biases in metabarcoding. 2018 , 18, 927	95
1774	Forest cover is more important than farmland heterogeneity and livestock intensification for the retention of dung beetle phylogenetic diversity. 2018 , 93, 524-532	12
1773	Woody plant diversity in relation to environmental factors in a seasonally dry tropical forest landscape. 2018 , 29, 704-714	4
1772	STADS. 2018 , 27, 1-52	15
1771	Large elevation and small host plant differences in the arbuscular mycorrhizal communities of montane and alpine grasslands on the Tibetan Plateau. 2018 , 28, 605-619	11
1770	Contrasting changes in freshwater fish assemblages and food webs follow modification of tropical waterways. 2018 , 27, 1114-1125	5
