

# CITATION REPORT

List of articles citing

Age-appropriate and acceptable paediatric dosage forms: Insights into end-user perceptions, preferences and practices from the Childrens Acceptability of Oral Formulations (CALF) Study

DOI: 10.1016/j.ijpharm.2016.07.054

International Journal of Pharmaceutics, 2016, 514, 296-307.

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
