

CITATION REPORT

List of articles citing

Improvement of resilience of urban areas by
integrating social perception in flash-flood risk management

DOI: 10.1016/j.jhydrol.2016.02.005
Journal of Hydrology, 2016, 541, 665-676.

Source: <https://exaly.com/paper-pdf/65476869/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
