List of articles citing

## Myc Depletion Induces a Pluripotent Dormant State Mimicking Diapause

DOI: 10.1016/j.cell.2015.12.033  
Cell, 2016, 164, 668-80.

**Source:** <https://exaly.com/paper-pdf/65500074/citation-report.pdf>

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 10 Dynamic network biomarker factors orchestrate cell-fate determination at tipping points during hESC differentiation. **2022**, 100364 ○
- 9 Targeting PEA3 transcription factors to mitigate small cell lung cancer progression. ○
- 8 Atypical cell cycle profile of mouse embryonic stem cell is regulated by classic oncogenic and tumor suppressive genes in vitro. **2022**, 8, e11979 ○
- 7 Myc controls IL-15-driven expansion and translational machinery of NK cells. ○
- 6 m6A RNA methylation orchestrates transcriptional dormancy during developmental pausing. ○
- 5 Autophagy, molecular chaperones, and unfolded protein response as promoters of tumor recurrence. **2023**, 42, 217-254 ○
- 4 Leukemic stem cells and therapy resistance in acute myeloid leukemia. **2023**, 108, 353-366 ○
- 3 Temperature-induced embryonic diapause in chickens is mediated by PKC-NF- $\kappa$ B-IRF1 signaling. **2023**, 21, ○
- 2 Boldine promotes stemness of human urine-derived stem cells by activating the Wnt/ $\beta$ -catenin signaling pathway. ○
- 1 Myc controls NK cell development, IL-15-driven expansion, and translational machinery. **2023**, 6, e202302069 ○
