

CITATION REPORT

List of articles citing

Dietary fiber and satiety: the effects of oats on satiety

DOI: 10.1093/nutrit/nuv063
Nutrition Reviews, 2016, 74, 131-47.

Source: <https://exaly.com/paper-pdf/65656859/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
108	High wholegrain barley β glucan lowers food intake but does not alter small intestinal macronutrient digestibility in ileorectostomised rats. 2016 , 67, 678-85		3
107	Health benefits of oat: current evidence and molecular mechanisms. 2017 , 14, 26-31		67
106	The effect of high β glucan flour incorporation into instant rice porridge on satiety and energy intake. 2017 , 11, 60-66		2
105	Ratios of soluble and insoluble dietary fibers on satiety and energy intake in overweight pre- and postmenopausal women. 2017 , 4, 157-168		12
104	Kernel-based gluten contamination of gluten-free oatmeal complicates gluten assessment as it causes binary-like test outcomes. 2017 , 52, 359-365		11
103	Gluten-containing grains skew gluten assessment in oats due to sample grind non-homogeneity. 2017 , 216, 170-5		17
102	Wild Rice: Nutritional and Health-Promoting Attributes. 2017 , 271-296		1
101	A Multifunctional Bread Rich in Beta Glucans and Low in Starch Improves Metabolic Control in Type 2 Diabetes: A Controlled Trial. 2017 , 9,		31
100	Effect of Oral Pre-Meal Administration of Betaglucans on Glycaemic Control and Variability in Subjects with Type 1 Diabetes. 2017 , 9,		7
99	Dietary Fiber, Gastric Emptying, and Carbohydrate Digestion: A Mini-Review. 2018 , 70, 1700346		23
98	Physiochemical properties and probiotic survivability of symbiotic oat-based beverage. 2018 , 27, 735-743		10
97	Short-chain fatty acids suppress food intake by activating vagal afferent neurons. 2018 , 57, 130-135		76
96	The effect of in vitro gastrointestinal conditions on the structure and conformation of oat β glucan. 2018 , 77, 659-668		16
95	A stepwise, 'test-all-positives' methodology to assess gluten-kernel contamination at the serving-size level in gluten-free (GF) oat production. 2018 , 240, 391-395		8
94	Assessment of Oats and Milk on Markers of Cardiovascular Disease. 2018 , 53, 293-299
