

# CITATION REPORT

List of articles citing

Evaluation of geriatric assessment in patients with chronic lymphocytic leukemia: Results of the CLL9 trial of the German CLL study group

DOI: 10.3109/10428194.2015.1091933

Leukemia and Lymphoma, 2016, 57, 789-96.

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
