

# CITATION REPORT

List of articles citing

## Classifying component failures of a hybrid electric vehicle fleet based on load spectrum data

DOI: 10.1007/s00521-015-2065-y  
Neural Computing and Applications, 2016, 27, 2289-2304.

**Version:** 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
