

# CITATION REPORT

List of articles citing

Targeting downstream transcription factors and epigenetic modifications following Toll-like receptor 7/8 ligation to forestall tissue injury in anti-Ro60 associated heart block

DOI: 10.1016/j.jaut.2015.09.003

Journal of Autoimmunity, 2016, 67, 36-45.

**Source:** <https://exaly.com/paper-pdf/65720658/citation-report.pdf>

**Version:** 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
