

CITATION REPORT

List of articles citing

Is the self a higher-order or fundamental function of the brain? The "basis model of self-specificity" and its encoding by the brain's spontaneous activity

DOI: 10.1080/17588928.2015.1111868
Cognitive Neuroscience, 2016, 7, 203-22.

Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
