Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
263	Comparative evaluation of the functional properties of superabsorbent dressings and their effect on exudate management. <i>Journal of Wound Care</i> , 2016 , 25, 452-62	2.2	18
262	Questions about the NHS Supply Chain's generic specifications project arise at TVS 2016. <i>Journal of Wound Care</i> , 2016 , 25, 225-6	2.2	0
261	The current burden of infected wounds. 2016 , 22, 436-438		4
260	Epidermal Graft Accelerates the Healing of Acute Wound: A Self-controlled Case Report. 2016 , 4, e1119		4
259	Clinical outcomes and cost-effectiveness of three different compression systems in newly-diagnosed venous leg ulcers in the UK. <i>Journal of Wound Care</i> , 2017 , 26, 244-254	2.2	17
258	The health economic burden that acute and chronic wounds impose on an average clinical commissioning group/health board in the UK. <i>Journal of Wound Care</i> , 2017 , 26, 292-303	2.2	101
257	Electrical stimulation therapy and electroceutical treatment for the management of venous leg ulcers. <i>British Journal of Community Nursing</i> , 2017 , 22 Suppl 3, S28-S36	0.6	5
256	Letters: Comment on Guest et al. The health economic burden that acute and chronic wounds impose on an average clinical commissioning group/health board in the UK. <i>Journal of Wound Care</i> , 2017 , 26, 353-355	2.2	
255	Volume reduction of the limb and venous leg ulcer healing. <i>British Journal of Nursing</i> , 2017 , 26, S24-S26	0.7	
254	Topical oxygenation therapy in wound care: are patients getting enough?. <i>British Journal of Nursing</i> , 2017 , 26, S28-S36	0.7	
253	Evidence generation for wound care dressing selection: reviewing the issues. <i>Journal of Wound Care</i> , 2017 , 26, 545-550	2.2	7
252	Treating highly exuding wounds in the community setting. <i>British Journal of Community Nursing</i> , 2017 , 22, S10-S12	0.6	
251	Quality of life in patients with leg ulcers: results from CHALLENGE, a double-blind randomised controlled trial. <i>Journal of Wound Care</i> , 2017 , 26, 368-379	2.2	25
250	Treating patients with venous leg ulcers in the acute setting: part 1. <i>British Journal of Nursing</i> , 2017 , 26, S32-S41	0.7	2
249	Pain associated with pressure injury: A qualitative study of community-based, home-dwelling individuals. 2017 , 73, 3061-3069		30
248	Health service provision and the use of pressure-redistributing devices: mixed methods study of community dwelling individuals with pressure injuries. 2017 , 53, 378-389		10
247	Foreword. <i>British Journal of Nursing</i> , 2017 , 26, S3	0.7	

246	Managing chronic oedema and wet legs in the community: a service evaluation. 2017 , 32, 39-50		10
245	Modern management in acute wound care. 2017 , 23, 477-483		2
244	Wound-bed preparation: a vital step in the healing process. <i>British Journal of Nursing</i> , 2017 , 26, S24-S31	0.7	14
243	Getting it right first time. <i>British Journal of Nursing</i> , 2017 , 26, S3	0.7	1
242	A cost-effectiveness analysis of a hydration response technology dressing in the treatment of venous leg ulcers in the UK. <i>Journal of Wound Care</i> , 2018 , 27, 166-172	2.2	5
241	The importance of accurate methodology in ABPI calculation when assessing lower limb wounds. <i>British Journal of Community Nursing</i> , 2018 , 23, S16-S21	0.6	2
240	Can this be the moment for leg ulcers?. <i>British Journal of Nursing</i> , 2018 , 27, S4	0.7	
239	Cost-effectiveness of using a collagen-containing dressing plus compression therapy in non-healing venous leg ulcers. <i>Journal of Wound Care</i> , 2018 , 27, 68-78	2.2	4
238	Venous leg ulcer management in clinical practice in the UK: costs and outcomes. <i>International Wound Journal</i> , 2018 , 15, 29-37	2.6	94
237	Stem cells, niches and scaffolds: Applications to burns and wound care. 2018 , 123, 82-106		35
236	Diabetic foot ulcer management in clinical practice in the UK: costs and outcomes. <i>International Wound Journal</i> , 2018 , 15, 43-52	2.6	56
235	Addressing the multisectoral impact of pressure injuries in the USA, UK and abroad. 2018 , 27, 171-173		15
234	Hydrogen peroxide-responsive engineered polyoxalate nanoparticles for enhanced wound healing. 2018 , 26, 40-47		13
233	Targeting Cx26 Expression by Sustained Release of Cx26 Antisense from Scaffolds Reduces Inflammation and Improves Wound Healing. 2018 , 2, 1800227		3
232	Compliance with NICE guidelines when commissioning varicose vein procedures. 2018 , 2, 419-425		4
231	Costs and outcomes in evaluating management of unhealed surgical wounds in the community in clinical practice in the UK: a cohort study. 2018 , 8, e022591		11
230	Use of dermal gel pads in preventing and managing pressure ulcers in ICU: an audit. <i>British Journal of Nursing</i> , 2018 , 27, S42-S47	0.7	2
229	Diabetic foot ulcer treatment with focused shockwave therapy: two multicentre, prospective, controlled, double-blinded, randomised phase III clinical trials. <i>Journal of Wound Care</i> , 2018 , 27, 822-836	2.2	6
