

CITATION REPORT

List of articles citing

Genetic association study of exfoliation syndrome identifies a protective rare variant at LOXL1 and five new susceptibility loci

DOI: 10.1038/ng.3875

Nature Genetics, 2017, 49, 993-1004.

Source: <https://exaly.com/paper-pdf/66483199/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
