Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
10	Conceptual exploration of a gravity-assisted electrorheological fluid-based gripping methodology for assistive technology. <i>Bio-Design and Manufacturing</i> , 2019 , 2, 145-152	4.7	2
9	Spin-coated polymer composite hydrophobic surfaces with self-cleaning performance. <i>Materials Research Express</i> , 2019 , 6, 076412	1.7	2
8	Non-destructive and Flexural Testing of Multilayer Bamboo Hollow-Core Reinforced Composite Bridges. <i>Lecture Notes in Civil Engineering</i> , 2021 , 185-204	0.3	
7	Study of the Influence of the Crystallographic Orientation of Cassiterite Observed with Colloidal Probe Atomic Force Microscopy and its Implications for Hydrophobization by an Anionic Flotation Collector. <i>ACS Omega</i> , 2021 , 6, 4212-4226	3.9	3
6	Machine learning model for understanding laser superhydrophobic surface functionalization. <i>Journal of Manufacturing Processes</i> , 2021 , 69, 491-502	5	4
5	Optimasi Metode KCKT untuk Penetapan Kadar 4-Isobutilasetofenon dan 2-(4-Isobutirilfenil) Asam Propanoat dalam Tablet Ibuprofen. <i>Jurnal Farmasi Dan Ilmu Kefarmasian Indonesia</i> , 2020 , 7, 26	0.1	
4	Chapter 8:Omniphobic Membranes: Fundamentals, Materials, and Applications. <i>Chemistry in the Environment</i> , 2021 , 184-206		
3	Comparative study on flavonoids from Tibetan medicinal plants Saussurea species using HPLC-DAD-ESI-MS. 1-8		0
2	Standardization of Particle Size for Floating Particle Wettability Measurement for Carbonate Rocks. 2023 , 8, 11837-11851		0
1	An Overview of Surface Modification, A Way Toward Fabrication of Nascent Biomedical Ti-6Al-4V Alloys. 2023 ,		0
