

CITATION REPORT

List of articles citing

Understanding the Molecular Mechanisms of the Interplay Between Herbal Medicines and Gut Microbiota

DOI: 10.1002/med.21431

Medicinal Research Reviews, 2017, 37, 1140-1185.

Version: 2024-04-17

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
211	Preparation-related structural diversity and medical potential in the treatment of diabetes mellitus with ginseng pectins. 2017 , 1401, 75-89		20
210	Human Gastrointestinal Metabolism of the Cistanches Herba Water Extract in Vitro: Elucidation of the Metabolic Profile Based on Comprehensive Metabolite Identification in Gastric Juice, Intestinal Juice, Human Intestinal Bacteria, and Intestinal Microsomes. 2017 , 65, 7447-7456		18
209	Panax ginseng and Panax quinquefolius: From pharmacology to toxicology. 2017 , 107, 362-372		130
208	Gut Microbiota Brings a Novel Way to Illuminate Mechanisms of Natural Products in vivo. 2017 , 9, 301-306		5
207	System Pharmacology-Based Dissection of the Synergistic Mechanism of Huangqi and Huanglian for Diabetes Mellitus. 2017 , 8, 694		84
206	Gut Microbiota and Nonalcoholic Fatty Liver Disease: Insights on Mechanisms and Therapy. 2017 , 9,		100
205	Balancing Herbal Medicine and Functional Food for Prevention and Treatment of Cardiometabolic Diseases through Modulating Gut Microbiota. 2017 , 8, 2146		97
204	Critical Problems Stalling Progress in Natural Bioactive Polysaccharide Research and Development. 2018 , 66, 4581-4583		15
203	Structural Modification of Natural Product Ganomycin I Leading to Discovery of a β -Glucosidase and HMG-CoA Reductase Dual Inhibitor Improving Obesity and Metabolic Dysfunction in Vivo. 2018 , 61, 3609-3625		33
202	Functional and structural characterization of a β -glucosidase involved in saponin metabolism from intestinal bacteria. 2018 , 496, 1349-1356		16
201	Astragalus affects fecal microbial composition of young hens as determined by 16S rRNA sequencing. 2018 , 8, 70		20
200	Laser microdissection hyphenated with high performance gel permeation chromatography-charged aerosol detector and ultra performance liquid chromatography-triple quadrupole mass spectrometry for histochemical analysis of polysaccharides in herbal medicine: Ginseng, a case study. 2018 , 107, 332-342		10
199	Gancao-Gansui combination impacts gut microbiota diversity and related metabolic functions. 2018 , 214, 71-82		23
198	Gut Microbiota, Short-Chain Fatty Acids, and Herbal Medicines. 2018 , 9, 1354		137
197	Fermented Astragalus in diet altered the composition of fecal microbiota in broiler chickens. 2018 , 8, 151		9
196	Modulation of the Gut Microbiota in Rats by Huga Qingzhi Tablets during the Treatment of High-Fat-Diet-Induced Nonalcoholic Fatty Liver Disease. 2018 , 2018, 7261619		62
195	Interpretation of Euphorbia Kansui Stir-Fried with Vinegar Treating Malignant Ascites by a UPLC-Q-TOF/MS Based Rat Serum and Urine Metabolomics Strategy Coupled with Network Pharmacology. 2018 , 23,		12

194	Antidepressant-Like Effects of Extract on Chronic Unpredictable Stress Rats Through Restoration of Gut Microbiota Homeostasis. 2018 , 9, 967	22
193	Absorption of Saponins by Coexisting Polysaccharides Alleviates Gut Microbial Dysbiosis with Dextran Sulfate Sodium-Induced Colitis in Model Mice. 2018 , 2018, 1781036	33
192	Oral hydroxysafflor yellow A reduces obesity in mice by modulating the gut microbiota and serum metabolism. 2018 , 134, 40-50	69
191	Protective Effects of Salvianolic Acid A against Dextran Sodium Sulfate-Induced Acute Colitis in Rats. 2018 , 10,	38
190	Assessment of the physicochemical properties and bacterial composition of <i>Lactobacillus plantarum</i> and <i>Enterococcus faecium</i> -fermented <i>Astragalus membranaceus</i> using single molecule, real-time sequencing technology. 2018 , 8, 11862	6
189	Impact of traditional Chinese medicine treatment on chronic unpredictable mild stress-induced depression-like behaviors: intestinal microbiota and gut microbiome function. 2019 , 10, 5886-5897	25
188	An Integrated Approach to Characterize Intestinal Metabolites of Four Phenylethanoid Glycosides and Intestinal Microbe-Mediated Antioxidant Activity Evaluation Using UHPLC-Q-Exactive High-Resolution Mass Spectrometry and a 1,1-Diphenyl-2-picrylhydrazyl-Based Assay. 2019 , 10, 826	6
187	Research Progress of Male Reproductive Toxicity of Chinese Materia Medicas. 2019 , 2019, 7249679	2
186	Isoorientin attenuates benzo[a]pyrene-induced colonic injury and gut microbiota disorders in mice. 2019 , 126, 108599	11
185	The interaction between the gut Microbiota and herbal medicines. 2019 , 118, 109252	40
184	In vitro and in vivo metabolism of <i>Cistanche tubulosa</i> extract in normal and chronic unpredictable stress-induced depressive rats. 2019 , 1125, 121728	4
183	GPP (Composition of Poly-saccharides and Poly-saccharides) Enhances Innate Immune Function in Mice. 2019 , 11,	11
182	Mechanisms of gastrointestinal microflora on drug metabolism in clinical practice. 2019 , 27, 1146-1156	16
181	Effects of Bread Yeast Cell Wall Beta-Glucans on Mice with Loperamide-Induced Constipation. 2019 , 22, 1009-1021	13
180	Gut microbial transformation, a potential improving factor in the therapeutic activities of four groups of natural compounds isolated from herbal medicines. 2019 , 138, 104293	7

45	Forsythiaside A alleviated carbon tetrachloride-induced liver fibrosis by modulating gut microbiota composition to increase short-chain fatty acids and restoring bile acids metabolism disorder. 2022 , 151, 113185	1
44	Effects of dangshen Yuanzhi Powder on learning ability and gut microflora in rats with memory disorder. 2022 , 115410	1
43	In Vitro Biotransformation of Total Glycosides in Qiwei Baizhu Powder by the Gut Microbiota of Normal and Diarrheal Mice: Novel Insight Into the Biotransformation of Multi-Glycosides by the Gut Microbiota. 10,	0
42	Effect of Traditional Chinese Medicine on the Gut Microbiota in Heat-Stressed Laying Hens. 9,	
41	Interactions between polysaccharides and gut microbiota: A metabolomic and microbial review. 2022 , 111653	0
40	Regulation of gut microbiota of Astragali Radix in treating for chronic atrophic gastritis rats based on metabolomics coupled with 16S rRNA gene sequencing. 2022 , 110063	0
39	Lycium barbarum Glycopeptide prevents the development and progression of acute colitis by regulating the composition and diversity of the gut microbiota in mice. 12,	0
38	Microbiota and COVID-19: Long-term and complex influencing factors. 13,	5
37	Total glycosides contribute to the anti-diarrheal effects of Qiwei Baizhu Powder via regulating gut microbiota and bile acids. 12,	0
36	The mechanism of berberine alleviating metabolic disorder based on gut microbiome. 12,	0
35	Angong Niu Huang Pill ameliorates cerebral ischemia/reperfusion injury in mice partly by restoring gut microbiota dysbiosis. 13,	0
34	The human fecal microbiome contributes to the biotransformation of the PFAS surfactant 8:2 monosubstituted polyfluoroalkyl phosphate ester.	0
33	Different creep compound feed formulations for new born piglets: influence on growth performance and health parameters. 9,	0

- 32 The interactions between traditional Chinese medicine and gut microbiota: Global research status and trends. 12, 1
- 31 Probiotics with anti-type 2 diabetes mellitus properties: targets of polysaccharides from traditional Chinese medicine. **2022**, 20, 641-655 0
- 30 Crosstalk between traditional Chinese medicine-derived polysaccharides and the gut microbiota: A new perspective to understand traditional Chinese medicine. 1
- 29 The exciting and magical journey of components from Compound formulae to where they fight. Publish Ahead of Print, 0
- 28 Lactiplantibacillus plantarum YZX28 alleviated intestinal barrier dysfunction induced by enterotoxigenic Escherichia coli via inhibiting its virulence factor production. **2022**, 50, 102050 0
- 27 Christensenella regulated by Huang-Qi-Ling-Hua-San is a key factor by which to improve type 2 diabetes. 13, 0
- 26 Interactions between Gut Microbiota and Polyphenols: New Insights into the Treatment of Fatigue. **2022**, 27, 7377 0
- 25 Gut Microbiome: The Interplay of an "Invisible Organ" with Herbal Medicine and Its Derived Compounds in Chronic Metabolic Disorders. **2022**, 19, 13076 2
- 24 Cocultivation of Chinese prescription and intestine microbiota: SJZD alleviated the major symptoms of IBS-D subjects by tuning neurotransmitter metabolism. 13, 0
- 23 Multi-target regulation of intestinal microbiota by berberine to improve type 2 diabetes mellitus. 13, 0
- 22 Modulatory Effects and Structural Alteration of Gut Microbiota by Traditional Chinese Medicine. **2022**, 100200 0
- 21 The Bioavailability of Glycyrrhizinic Acid Was Enhanced by Probiotic Lactobacillus rhamnosus R0011 Supplementation in Liver Fibrosis Rats. **2022**, 14, 5278 0
- 20 Terminalia bellirica ethanol extract ameliorates nonalcoholic fatty liver disease in mice by amending the intestinal microbiota and faecal metabolites. **2022**, 116082 0
- 19 Traditional Chinese Medicine: An Exogenous Regulator of Crosstalk between the Gut Microbial Ecosystem and CKD. **2022**, 2022, 1-15 0
- 18 Cannabis sativa L. alleviates loperamide-induced constipation by modulating the composition of gut microbiota in mice. 13, 0
