

CITATION REPORT

List of articles citing

Bronchopulmonary Dysplasia: Chronic Lung Disease of Infancy and Long-Term Pulmonary Outcomes

DOI: 10.3390/jcm6010004
Journal of Clinical Medicine, 2017, 6, .

Source: <https://exaly.com/paper-pdf/68366073/citation-report.pdf>

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
220	Pediatric pulmonary arterial hypertension: on the eve of growing up. 2017 , 23, 398-403		2
219	Non-invasive high-frequency oscillatory ventilation for preterm newborns: The time has come for consideration. 2017 , 52, 1526-1528		1
218	Medical Devices for Pediatric Apnea Monitoring and Therapy: Past and New Trends. 2017 , 10, 199-212		16
217	Infants Sleep for Brain. 2017 , 13, 1233-1234		
216	Quercetin attenuates the hyperoxic lung injury in neonatal mice: Implications for Bronchopulmonary dysplasia (BPD). 2018 , 114, 23-33		19
215	Hospital Readmissions in Children with Pulmonary Hypertension: A Multi-Institutional Analysis. 2018 , 195, 95-101.e4		5
214	Nasal high-frequency oscillatory ventilation inhibits gastroesophageal reflux in the neonatal period. 2018 , 251, 28-33		4
213	Recent Advances in Bronchopulmonary Dysplasia: Pathophysiology, Prevention, and Treatment. 2018 , 196, 129-138		57
212	Long-term pulmonary and cardiovascular morbidities of neonatal hyperoxia exposure in mice. 2018 , 94, 119-124		16
211	Lung Diseases. 2018 , 108, 61-84		3
210	Evaluating the use of corticosteroids in preventing and treating bronchopulmonary dysplasia in preterm neonates. 2018 , 11, 265-274		11
209	The Free Radical Diseases of Prematurity: From Cellular Mechanisms to Bedside. 2018 , 2018, 7483062		32
208	Bronchopulmonary dysplasia or chronic lung disease: an appeal to standardize nomenclature. 2018 , 84, 589-590		4
207	Human milk as a protective factor for bronchopulmonary dysplasia: a systematic review and meta-analysis. 2019 , 104, F128-F136		34
206	Non-invasive measurements of respiratory system mechanical properties by the forced oscillation technique in spontaneously breathing, mixed-breed, normal term lambs from birth to five months of age. 2019 , 40, 105007		4
205	Effects of Melatonin on the Defense to Acute Hypoxia in Newborn Lambs. 2019 , 10, 433		2
204	The level of extracellular superoxide dismutase in the first week of life in very and extremely low birth weight infants and the risk of developing bronchopulmonary dysplasia. 2019 , 47, 671-676		4

203	Bronchopulmonary dysplasia: risk prediction models for very-low- birth-weight infants. 2019 , 39, 1275-1281	8
202	Prematurity as an Independent Risk Factor for the Development of Pulmonary Disease. 2019 , 213, 110-114	5
201	Effect of Intranasal Instillation of Lipopolysaccharide on Lung Development and Its Related Mechanism in Newborn Mice. 2019 , 39, 684-693	3
200	Toll Like Receptor 4 Mediated Lymphocyte Imbalance Induces Nec-Induced Lung Injury. 2019 , 52, 215-223	11
199	Recent advances in our understanding of the mechanisms of lung alveolarization and bronchopulmonary dysplasia. 2019 , 317, L832-L887	53
198	Is Endocan a Novel Diagnostic Marker for the Severity of Bronchopulmonary Dysplasia in Very Low Birth Weight Infants?. 2019 , 55, 465-471	0
197	Impact of Early Life Antibiotic Exposure and Neonatal Hyperoxia on the Murine Microbiome and Lung Injury. 2019 , 9, 14992	7
