

CITATION REPORT

List of articles citing

Microbial Phosphorus Solubilization and Its Potential for Use in Sustainable Agriculture

DOI: 10.3389/fmicb.2017.00971
Frontiers in Microbiology, 2017, 8, 971.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
747	Mechanisms of action of plant growth promoting bacteria. 2017 , 33, 197		403
746	Phosphate-Solubilizing Bacteria Nullify the Antagonistic Effect of Soil Calcification on Bioavailability of Phosphorus in Alkaline Soils. 2017 , 7, 16131		63
745	Phosphate-Solubilizing Microorganisms in Sustainable Agriculture: Genetic Mechanism and Application. 2017 , 81-97		9
744	PGPRs of plum (<i>Prunus domestica</i>) rhizosphere enhance plant growth and antagonise fungal activity in vitro. 2018 , 68, 367-378		
743	Root-Associated Bacterial and Fungal Community Profiles of <i>Arabidopsis thaliana</i> Are Robust Across Contrasting Soil P Levels. 2018 , 2, 24-34		23
742	Use of a gnotobiotic plant assay for assessing root colonization and mineral phosphate solubilization by <i>Paraburkholderia bryophila</i> Ha185 in association with perennial ryegrass (<i>Lolium perenne</i> L.). 2018 , 425, 43-55		7
741	Biopesticides produced by plant-probiotic <i>Pseudomonas chlororaphis</i> isolates. 2018 , 105, 62-69		37
740	Modification of root properties with phosphate solubilizing bacteria and arbuscular mycorrhiza to reduce rock phosphate application in soybean-wheat cropping system. 2018 , 111, 31-43		17
739	Full Issue PDF. 2018 , 2, 109-180		
738	Comparative genomic and functional analyses of four sequenced <i>Bacillus cereus</i> genomes reveal conservation of genes relevant to plant-growth-promoting traits. 2018 , 8, 17009		21
737	Impact of pH and Ionic Molar Ratios on Phosphorous Forms Precipitation and Recovery from Different Wastewater Sludges. 2018 , 7, 71		36
736	Environmental sustainability: challenges and viable solutions. 2018 , 1, 309-340		88
735	Formulation of slow release NPK fertilizer (cellulose-graft-poly(acrylamide)/nano-hydroxyapatite/soluble fertilizer) composite and evaluating its N mineralization potential. 2018 , 63, 163-172		28
734	Microbial Inoculants for Improving Crop Quality and Human Health in Africa. <i>Frontiers in Microbiology</i> , 2018 , 9, 2213	5.7	111
733	Genome sequencing and assessment of plant growth-promoting properties of a <i>Serratia marcescens</i> strain isolated from vermicompost. 2018 , 19, 750		34
732	Root-Associated Microbiome of Maize Genotypes with Contrasting Phosphorus Use Efficiency. 2018 , 2, 129-137		37
731	Plant growth promoting bacteria: role in soil improvement, abiotic and biotic stress management of crops. 2018 , 37, 1599-1609		72

730	Aerosols in atmospheric chemistry and biogeochemical cycles of nutrients. 2018 , 13, 063004		49
729	Defining plant growth promoting rhizobacteria molecular and biochemical networks in beneficial plant-microbe interactions. 2018 , 428, 35-55		110
728	Similar positive effects of beneficial bacteria, nematodes and earthworms on soil quality and productivity. 2018 , 130, 202-208		12
727	Microbial Group Dynamics in Plant Rhizospheres and Their Implications on Nutrient Cycling. <i>Frontiers in Microbiology</i> , 2018 , 9, 1516	5-7	38
726	Sustainable Agriculture—Enhancing Environmental Benefits, Food Nutritional Quality and Building Crop Resilience to Abiotic and Biotic Stresses. 2018 , 8, 8		38
725	Isolation and identification of phosphate-solubilizing microorganisms and distribution of orthophosphate in different seasons from sewage-fed East Kolkata Wetland. 2018 , 23, 261-270		2
724	The influence of plant growth-promoting rhizobacteria in plant tolerance to abiotic stress: a survival strategy. 2018 , 102, 7821-7835		129
723	New Bacterial Phytase through Metagenomic Prospection. 2018 , 23,		15
722	Soil Microbial Resources for Improving Fertilizers Efficiency in an Integrated Plant Nutrient Management System. <i>Frontiers in Microbiology</i> , 2018 , 9, 1606	5-7	210
721	Enhancement of rice growth and yield in actual acid sulfate soils by potent acid-resistant <i>Rhodopseudomonas palustris</i> strains for producing safe rice. 2018 , 429, 483-501		15
720	Regulatory rewiring through global gene regulations by PhoB and alarmone (p)ppGpp under various stress conditions. 2019 , 227, 126309		8
719	Status and Prospects of Bacterial Inoculants for Sustainable Management of Agroecosystems. 2019 , 137-172		7
718	Genetic Potential of the Biocontrol Agent (Formerly) 3Re2-7 Unraveled by Genome Sequencing and Mining, Comparative Genomics and Transcriptomics. 2019 , 10,		18
717	Phosphate-Solubilising Fungi and Their Potential Role in Sustainable Agriculture. 2019 , 371-393		1
716	Microbial Interactions in Soil Formation and Nutrient Cycling. 2019 , 363-382		6
715	Isolation, identification and plant growth promotion ability of endophytic bacteria associated with lupine root nodule grown in Tunisian soil. 2019 , 201, 1333-1349		19
