CITATION REPORT List of articles citing

Effects of gastric bypass followed by a randomized study of physical training on markers of coagulation activation, fibrin clot properties, and fibrinolysis

DOI: 10.1016/j.soard.2018.03.022 Surgery for Obesity and Related Diseases, 2018, 14, 918-926.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
