

CITATION REPORT

List of articles citing

Venous leg ulcer management in clinical practice in the UK: costs and outcomes

DOI: 10.1111/iwj.12814

International Wound Journal, 2018, 15, 29-37.

Source: <https://exaly.com/paper-pdf/69172865/citation-report.pdf>

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
114	A Randomized Trial of Early Endovenous Ablation in Venous Ulceration. 2018 , 378, 2105-2114		143
113	Cost-effectiveness of an electroceutical device in treating non-healing venous leg ulcers: results of an RCT. 2018 , 27, 230-243		5
112	Budget impact of antimicrobial wound dressings in the treatment of venous leg ulcers in the German outpatient care sector: a budget impact analysis. 2018 , 6, 1527654		4
111	Venous leg ulcers managed using polyurethane foam with a micropore dressing: two case reports. 2018 , 27, S37-S40		1
110	Strategies for improving outcomes in venous leg ulcer care. 2018 , 27, 456-457		2
109	Implementation of NICE technology guidance on venous leg ulcers and diabetic foot ulcers: a conference report. 2019 , 28, 543-547		1
108	Competence areas for registered nurses and podiatrists in chronic wound care, and their role in wound care practice. 2019 , 28, 4021-4034		7
107	Active debridement of venous leg ulcers: a literature review to inform clinical practice. 2019 , 24, S24-S29		2
106	ReadyWrap® : case studies in practice. 2019 , 24, S24-S31		2
105	Possible implications and clinical value of commercially sponsored evaluations: discussion on research methodology. 2019 , 28, 501-509		
104	Biofilm management using monofilament fibre debridement technology: outcomes and clinician and patient satisfaction. 2019 , 28, 608-622		3
103	Congruence between perceived and theoretical knowledge before and after an internet-based continuing education program about venous leg ulcer nursing care. 2019 , 83, 104195		0
102	Introducing the British Lymphology Society position paper on ankle brachial pressure index. 2019 , 24, 206-211		0
101	Bacterial-binding dressings in the management of wound healing and infection prevention: a narrative review. 2019 , 28, 370-382		12
100	Having a voice and raising the profile of lower limb healthcare!. 2019 , 24, S39-S40		
99	Implementing TIMERS: the race against hard-to-heal wounds. 2019 , 23, S1-S50		74
98	Survey of registered nurses' selection of compression systems for the treatment of venous leg ulcers in the UK. 2019 , 28, 115-119		7

97	Evaluation of TLC-NOSF dressing with poly-absorbent fibres in exuding leg ulcers: two multicentric, single-arm, prospective, open-label clinical trials. 2019 , 28, 164-175			13
96	Clinical superiority of an innovative two-component compression system versus four-component compression system in treatment of active venous leg ulcers: A randomized trial. 2019 , 34, 611-620			2
95	Thyroxine (T4) may promote re-epithelialisation and angiogenesis in wounded human skin ex vivo. 2019 , 14, e0212659			8
94	Early referral of venous leg ulcers: EVRA trial lessons. 2019 , 21, 496-501			
93	Effectiveness of two bundles in venous leg ulcer healing: A randomized controlled trial. 2019 , 37, 232-245			5
92	ABPI reporting and compression recommendations in global clinical practice guidelines on venous leg ulcer management: A scoping review. <i>International Wound Journal</i> , 2019 , 16, 406-419	2.6		20
91	A Systematic Review of Model-Based Economic Evaluations of Treatments for Venous Leg Ulcers. 2020 , 4, 211-222			2
90	Early referral of venous leg ulcers: lessons from the EVRA trial. 2020 , 22, 31-36			
89	Vascular assessment in venous leg ulcer diagnostics and management in Australian primary care: Clinician experiences. 2020 , 29, 184-189			4
88	Validation of predictive factors for infection in adults with chronic leg ulcers: A prospective longitudinal study. 2020 , 29, 1074-1084			2
87	Venous stenting for patients with outflow obstruction and leg ulcers: cost-effectiveness and budget impact analyses. 2020 , 9, 705-720			1
86	Achte auf dich!. 2020 , 25, 10-12			
85	Nurse-led patient education for persons suffering from a venous leg ulcer in outpatient's clinics and homecare settings: A scoping review. 2020 , 29, 297-309			1
84	Experiences of Venous Leg Ulcer persons following an individualised nurse-led education: protocol for a qualitative study using a constructivist grounded theory approach. 2020 , 10, e042605			2
83	Using a health improvement methodology to standardise leg ulcer management. 2020 , 25, S20-S25			0
82	NICE on antimicrobial prescribing for leg ulcer infection. 2020 , 31, 27-30			
81	A point-of-care app for chronic oedema management. 2020 , 25, S12-S16			
80	Cost of managing patients with venous leg ulcers. <i>International Wound Journal</i> , 2020 , 17, 1074-1082	2.6		17
