## CITATION REPORT List of articles citing

Extending Near-Term Emissions Scenarios to Assess Warming Implications of Paris Agreement NDCs

DOI: 10.1002/2017ef000781 Earths Future, 2018, 6, 1242-1259.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
