173 Clinical evaluation of super-resolution for brain MRI images based on generative adversarial networks. **2022**, 101030   1

172   Application of data augmentation techniques towards metabolomics. **2022**, 105916   1

171   A novel retinal image generation model with the preservation of structural similarity and high resolution. **2022**, 78, 104004

170   Medical Image Classification for Disease Prediction with the Aid of Deep Learning Approaches. **2022**,   0

169   Medical Image Classification for Disease Prediction with the AID of Machine Learning Approach. **2022**,

168   Image Quality Assessment by Integration of Low-level & High-Level Features: Threshold Similarity Index. **2022**,

167   Interactively Assessing Disentanglement in GANs. **2022**, 41, 85-95

166   COVID-19 Classification Using Medical Image Synthesis by Generative Adversarial Networks. **2022**, 30, 385-401   1

165   A Novel Automatic Quantification Protocol for Biomarkers of Tauopathies in the Hippocampus and Entorhinal Cortex of Post-Mortem Samples Using an Extended Semi-Siamese U-Net. **2022**, 11, 1131

164   A COVID-19 Auxiliary Diagnosis Based on Federated Learning and Blockchain. **2022**, 2022, 1-12

163   An intelligent system for craniomaxillofacial defecting reconstruction.

162   A deep data augmentation framework based on generative adversarial networks.

161   Inverted papilloma and nasal polyp classification using a deep convolutional network integrated with an attention mechanism. **2022**, 105976   0

160   Improving classification results on a small medical dataset using a GAN; An outlook for dealing with rare disease datasets. 4,   0

159   Deep adversarial data augmentation for biomedical spectroscopy: Application to modelling Raman spectra of bone. **2022**, 228, 104634   0

158   Generative adversarial networks (GANs) for image augmentation in agriculture: A systematic review. **2022**, 200, 107208   6

157   Deep multi-scale resemblance network for the sub-class differentiation of adrenal masses on computed tomography images. **2022**, 132, 102374

156   Label-informed cardiac magnetic resonance image synthesis through conditional generative adversarial networks. **2022**, 101, 102123   1

155   Optimized automated cardiac MR scar quantification with GAN-based data augmentation. **2022**, 226, 107116   1
