

CITATION REPORT

List of articles citing

Three-way decision and granular computing

DOI: 10.1016/j.ijar.2018.09.005

International Journal of Approximate Reasoning, 2018,
103, 107-123.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
323	Three-way decisions based feature fusion for Chinese irony detection. <i>International Journal of Approximate Reasoning</i> , 2019 , 113, 324-335	3.6	36
322	An efficient selector for multi-granularity attribute reduction. 2019 , 505, 457-472		63
321	Double-Granule Conditional-Entropies Based on Three-Level Granular Structures. 2019 , 21,		4
320	Stabilizing the information granules formed by the principle of justifiable granularity. 2019 , 503, 183-199		5
319	Related families-based methods for updating reducts under dynamic object sets. 2019 , 60, 1081-1104		9
318	Bipolar Fuzzy Rough Cognitive Network. 2019 ,		
317	Generalized multi-granulation double-quantitative decision-theoretic rough set of multi-source information system. <i>International Journal of Approximate Reasoning</i> , 2019 , 115, 157-179	3.6	19
316	Influences of Three-Way Concept Lattice Caused by Variations of Attribute Values. 2019 , 2019, 1-11		
315	Three-way dual concept analysis. <i>International Journal of Approximate Reasoning</i> , 2019 , 114, 151-165	3.6	50
314	Constrained shadowed sets and fast optimization algorithm. 2019 , 34, 2655-2675		9
313	Fuzzy information granular structures: A further investigation. <i>International Journal of Approximate Reasoning</i> , 2019 , 114, 127-150	3.6	10
312	Generalized multi-scale decision tables with multi-scale decision attributes. <i>International Journal of Approximate Reasoning</i> , 2019 , 115, 194-208	3.6	18
311	Knowledge structure preserving fuzzy attribute reduction in fuzzy formal context. <i>International Journal of Approximate Reasoning</i> , 2019 , 115, 209-220	3.6	10
310	A three-way grey incidence clustering approach with changing decision objects. 2019 , 137, 106087		3
309	A three-way clustering method based on an improved DBSCAN algorithm. 2019 , 535, 122289		27
308	Three-way fuzzy matroids and granular computing. <i>International Journal of Approximate Reasoning</i> , 2019 , 114, 44-50	3.6	12
307	Uncertainty measures for interval set information tables based on interval \mathcal{E} similarity relation. 2019 , 501, 272-292		8

306	TOPSIS method based on a fuzzy covering approximation space: An application to biological nano-materials selection. 2019 , 502, 297-329		51
305	An Application of Bayesian Confirmation Theory for Three-Way Decision. 2019 , 3-15		3
304	Constrained three-way approximations of fuzzy sets: From the perspective of minimal distance. 2019 , 502, 247-267		10
303	Cost-sensitive active learning through statistical methods. 2019 , 501, 460-482		9
302	An optimization-based formulation for three-way decisions. 2019 , 495, 185-214		32
301	Three-way fuzzy partitions defined by shadowed sets. 2019 , 497, 23-37		13
300	Three-way conflict analysis: Reformulations and extensions of the Pawlak model. 2019 , 180, 26-37		66
299	Heterogeneous multi-attribute nonadditivity fusion for behavioral three-way decisions in interval type-2 fuzzy environment. 2019 , 496, 242-263		30
298	Incremental approaches to updating reducts under dynamic covering granularity. 2019 , 172, 130-140		16
297	Matrix Method for the Optimal Scale Selection of Multi-Scale Information Decision Systems. 2019 , 7, 290		7
296	Emergency Alternative Selection Based on an E-IFWA Approach. 2019 , 7, 44431-44440		21
295	A temporal-spatial composite sequential approach of three-way granular computing. 2019 , 486, 171-189		50
294	Granule description based knowledge discovery from incomplete formal contexts via necessary attribute analysis. 2019 , 485, 347-361		22
293	Identifying Compatible Syndrome Elements of Traditional Chinese Medicine Based on Three-Way Decisions. 2019 ,		
292	Ensemble-Based Neighborhood Attribute Reduction: A Multigranularity View. 2019 , 2019, 1-17		3
291	Multigranulation sequential three-way decisions based on multiple thresholds. <i>International Journal of Approximate Reasoning</i> , 2019 , 105, 396-416	3.6	36
290	Cost-sensitive three-way class-specific attribute reduction. <i>International Journal of Approximate Reasoning</i> , 2019 , 105, 153-174	3.6	26
289	A cost-sensitive three-way combination technique for ensemble learning in sentiment classification. <i>International Journal of Approximate Reasoning</i> , 2019 , 105, 85-97	3.6	44

288	Three-way decision making approach to conflict analysis and resolution using probabilistic rough set over two universes. 2020 , 507, 809-822		73
287	Sequential three-way decisions via multi-granularity. 2020 , 507, 606-629		45
286	Sequential three-way decision based on multi-granular autoencoder features. 2020 , 507, 630-643		39
285	Three-Way Group Conflict Analysis Based on Pythagorean Fuzzy Set Theory. 2020 , 28, 447-461		85
284	Interval-valued hesitant fuzzy multi-granularity three-way decisions in consensus processes with applications to multi-attribute group decision making. 2020 , 511, 192-211		35
283	Granularity-driven sequential three-way decisions: A cost-sensitive approach to classification. 2020 , 507, 644-664		28
282	Three-way decision based on improved aggregation method of interval loss function. 2020 , 508, 214-233		10
281	Three-way convex systems and three-way fuzzy convex systems. 2020 , 510, 89-98		9
280	Granular structure-based incremental updating for multi-label classification. 2020 , 189, 105066		10
279	Uncertain Data Modeling Based on Evolving Ellipsoidal Fuzzy Information Granules. 2020 , 28, 2427-2436		9
278	Three-way decisions in fuzzy incomplete information systems. 2020 , 11, 667-674		15
277	Three-way decision based on decision-theoretic rough sets with single-valued neutrosophic information. 2020 , 11, 657-665		21
276	On rule acquisition methods for data classification in heterogeneous incomplete decision systems. 2020 , 193, 105472		2
275	The dynamic update method of attribute-induced three-way granular concept in formal contexts. <i>International Journal of Approximate Reasoning</i> , 2020 , 126, 228-248	3.6	16
274	Quantitative three-way class-specific attribute reducts based on region preservations. <i>International Journal of Approximate Reasoning</i> , 2020 , 117, 96-121	3.6	16
273	Conflict analysis under one-vote veto based on approximate three-way concept lattice. 2020 , 516, 316-330		31
272	On modeling similarity and three-way decision under incomplete information in rough set theory. 2020 , 191, 105251		28
271	Three-way decision on two universes. 2020 , 515, 263-279		16

270	Three-way granular computing, rough sets, and formal concept analysis. <i>International Journal of Approximate Reasoning</i> , 2020 , 116, 106-125	3.6	126
269	Optimal granule level selection: A granule description accuracy viewpoint. <i>International Journal of Approximate Reasoning</i> , 2020 , 116, 85-105	3.6	18
268	Incremental concept-cognitive learning based on attribute topology. <i>International Journal of Approximate Reasoning</i> , 2020 , 118, 173-189	3.6	15
267	Tri-level thinking: models of three-way decision. 2020 , 11, 947-959		81
266	Multi-attribute group decision-making method based on multi-granulation weights and three-way decisions. <i>International Journal of Approximate Reasoning</i> , 2020 , 117, 122-147	3.6	33
265	A matrix factorization based dynamic granularity recommendation with three-way decisions. 2020 , 191, 105243		37
264	Neutrosophic fusion of rough set theory: An overview. 2020 , 115, 103117		19
263	Three-stage reject inference learning framework for credit scoring using unsupervised transfer learning and three-way decision theory. 2020 , 137, 113366		40
262	Three-Way Decisions Making Using Covering Based Fractional Orthotriple Fuzzy Rough Set Model. 2020 , 8, 1121		14
261	BWM and MULTIMOORA-based multigranulation sequential three-way decision model for multi-attribute group decision-making problem. <i>International Journal of Approximate Reasoning</i> , 2020 , 125, 169-186	3.6	15
260	An Offline and Online Algorithm for All Minimal $k U $ Parameter Subsets of a Soft Set Based on Integer Partition. 2020 , 8, 192393-192407		1
259	A weighted complement-entropy system based on tri-level granular structures. 2020 , 49, 872-905		4
258	Action Strategy Analysis in Probabilistic Preference Movement-Based Three-Way Decision. 2020 , 2020, 1-13		0
257	Multi-granulation method for information fusion in multi-source decision information system. <i>International Journal of Approximate Reasoning</i> , 2020 , 122, 47-65	3.6	35
256	A novel three-way decision method in a hybrid information system with images and its application in medical diagnosis. 2020 , 92, 103651		22
255	Preference degree-based multi-granularity sequential three-way group conflict decisions approach to the integration of TCM and Western medicine. 2020 , 143, 106393		7
254	Measures associated with granularity and rough approximations in interval-valued information tables based on kernel similarity relations. 2020 , 538, 337-357		2
253	Weighted partial order oriented three-way decisions under score-based common voting rules. <i>International Journal of Approximate Reasoning</i> , 2020 , 123, 41-54	3.6	4

252	On relationship between three-way concept lattices. 2020 , 538, 396-414		5
251	Fuzzy-Based Concept Learning Method: Exploiting Data With Fuzzy Conceptual Clustering. 2020 ,		11
250	Three-way decisions based on multi-granulation support intuitionistic fuzzy probabilistic rough sets. 2020 , 38, 5013-5031		6
249	Construction of three-way attribute partial order structure via cognitive science and granular computing. 2020 , 197, 105859		4
248	Granule description in knowledge granularity and representation. 2020 , 203, 106160		8
247	Optimal scale selection and attribute reduction in multi-scale decision tables based on three-way decision. 2020 , 541, 36-59		11
246	A multilevel neighborhood sequential decision approach of three-way granular computing. 2020 , 538, 119-141		21
245	A computational formulation of distribution reducts in probabilistic rough set models. 2020 , 24, 7093-7111		1
244	Extending characteristic relations on an incomplete data set by the three-way decision theory. <i>International Journal of Approximate Reasoning</i> , 2020 , 119, 108-121	3.6	4
243	Three-way decision with incomplete information based on similarity and satisfiability. <i>International Journal of Approximate Reasoning</i> , 2020 , 120, 151-183	3.6	15
242	Supervised information granulation strategy for attribute reduction. 2020 , 11, 2149-2163		24
241	A model of three-way decisions for Knowledge Harnessing. <i>International Journal of Approximate Reasoning</i> , 2020 , 120, 184-202	3.6	8
240	A general conflict analysis model based on three-way decision. 2020 , 11, 1083-1094		26
239	Incrementally updating approximations based on the graded tolerance relation in incomplete information tables. 2020 , 24, 8655-8671		1
238	A co-training approach for sequential three-way decisions. 2020 , 11, 1129-1139		4
237	Strategy selection under entropy measures in movement-based three-way decision. <i>International Journal of Approximate Reasoning</i> , 2020 , 119, 280-291	3.6	16
236	Intuitionistic Fuzzy Three-Way Decision Model Based on the Three-Way Granular Computing Method. 2020 , 12, 1068		4
235	Three-way decision models based on multigranulation support intuitionistic fuzzy rough sets. <i>International Journal of Approximate Reasoning</i> , 2020 , 124, 147-172	3.6	6

234	Local temporal-spatial multi-granularity learning for sequential three-way granular computing. 2020 , 541, 75-97		13
233	Three-way multi-attribute decision-making based on outranking relations. 2020 , 1-1		70
232	A novel decision-making approach based on three-way decisions in fuzzy information systems. 2020 , 541, 362-390		43
231	Incremental three-way neighborhood approach for dynamic incomplete hybrid data. 2020 , 541, 98-122		12
230	An adaptive dwell time scheduling model for phased array radar based on three-way decision. 2020 , 31, 500-509		3
229	A heuristic representation learning based on evidential memberships: Case study of UCI-SPECTF. <i>International Journal of Approximate Reasoning</i> , 2020 , 120, 125-137	3.6	16
228	Mutual information-based label distribution feature selection for multi-label learning. 2020 , 195, 105684		13
227	Three-way decisions: beyond rough sets and granular computing. 2020 , 11, 989-1002		33
226	Complex network analysis of three-way decision researches. 2020 , 11, 973-987		26
225	Incremental updating probabilistic neighborhood three-way regions with time-evolving attributes. <i>International Journal of Approximate Reasoning</i> , 2020 , 120, 1-23	3.6	8
224	Mean-entropy-based shadowed sets: A novel three-way approximation of fuzzy sets. <i>International Journal of Approximate Reasoning</i> , 2020 , 120, 102-124	3.6	14
223	Three-way active learning through clustering selection. 2020 , 11, 1033-1046		11
222	A multiple attribute decision making three-way model for intuitionistic fuzzy numbers. <i>International Journal of Approximate Reasoning</i> , 2020 , 119, 177-203	3.6	55
221	High-performance attribute reduction on graphics processing unit. 2020 , 32, 977-996		1
220	Sequential three-way multiple attribute group decisions with individual attributes and its consensus achievement based on social influence. 2020 , 518, 286-308		11
219	Semantics of soft sets and three-way decision with soft sets. 2020 , 194, 105538		31
218	Data meaning and knowledge discovery: Semantical aspects of information systems. <i>International Journal of Approximate Reasoning</i> , 2020 , 119, 40-57	3.6	4
217	The three-way-in and three-way-out framework to treat and exploit ambiguity in data. <i>International Journal of Approximate Reasoning</i> , 2020 , 119, 292-312	3.6	18

216	Three-way conflict analysis: A unification of models based on rough sets and formal concept analysis. 2020 , 194, 105556		20
215	Intuitionistic fuzzy three-way formal concept analysis based attribute correlation degree. 2021 , 40, 1567-1583	4	
214	Set-theoretic models of three-way decision. 2021 , 6, 133-148		32
213	Incremental fuzzy probability decision-theoretic approaches to dynamic three-way approximations. 2021 , 550, 71-90		13
212	Three-way decision on information tables. 2021 , 545, 25-43		16
211	Principles for constructing three-way approximations of fuzzy sets: A comparative evaluation based on unsupervised learning. 2021 , 413, 74-98		12
210	Two-stage three-way enhanced technique for ensemble learning in inclusive policy text classification. 2021 , 547, 271-288		12
209	A novel methodology to select sustainable municipal solid waste management scenarios from three-way decisions perspective. 2021 , 280, 124312		8
208	Three-way decision with co-training for partially labeled data. 2021 , 544, 500-518		14
207	A three-way density peak clustering method based on evidence theory. 2021 , 211, 106532		17
206	Multi-source information fusion based on rough set theory: A review. 2021 , 68, 85-117		41
205	Variable-precision three-way concepts in L-contexts. <i>International Journal of Approximate Reasoning</i> , 2021 , 130, 107-125	3.6	8
204	An interpretable sequential three-way recommendation based on collaborative topic regression. 2021 , 168, 114454		14
203	Three-way multi-attribute decision making under hesitant fuzzy environments. 2021 , 552, 328-351		23
202	Network-based evidential three-way theoretic model for large-scale group decision analysis. 2021 , 547, 689-709		14
201	Label distribution feature selection for multi-label classification with rough set. <i>International Journal of Approximate Reasoning</i> , 2021 , 128, 32-55	3.6	9
200	Fuzzy entropies for class-specific and classification-based attribute reducts in three-way probabilistic rough set models. 2021 , 12, 433-457		7
199	Optimal scale combination selection for multi-scale decision tables based on three-way decision. 2021 , 12, 281-301		2

198	Risk interval-valued three-way decisions model with regret theory and its application to project resource allocation. 2021 , 72, 180-199	17
197	Three-way clustering method for incomplete information system based on set-pair analysis. 2021 , 6, 389-398	5
196	Three-way decision models and its optimization based on Dempster-Shafer evidence theory and rough sets. 2021 , 6, 411-420	2
195	Granular Multilabel Batch Active Learning With Pairwise Label Correlation. 2021 , 1-13	3
194	Improving Quality of Ensemble Technique for Categorical Data Clustering Using Granule Computing. 2021 , 261-272	
193	3RD: A Multi-criteria Decision-Making Method Based on Three-Way Rankings. 2021 , 294-309	
192	The geometry of three-way decision. 2021 , 51, 6298-6325	42
191	Trilevel Multi-criteria Decision Analysis Based on Three-Way Decision. 2021 , 115-124	
190	Three-Way Clustering Method Based on Stability Theory. 2021 , 9, 33944-33953	5
189	. 2021 , 9, 89432-89438	2
188	Three-level and three-way uncertainty measurements for interval-valued decision systems. 2021 , 12, 1459-1481	2
187	Adaptive Fuzzy PID Based on Granular Function for Proton Exchange Membrane Fuel Cell Oxygen Excess Ratio Control. 2021 , 14, 1140	5
186	An energy-aware virtual machine migration strategy based on three-way decisions. 2021 , 7, 8597-8597	2
185	Three-way rough semiconcept. 2021 , 40, 4317-4330	1
184	Measuring the outcome of movement-based three-way decision using proportional utility functions. 2021 , 51, 8598	3
183	Data-driven sequential three-way decisions for unlabeled information system. 2021 , 1-12	1
182	Approaches to Three-Way Decisions Based on the Evaluation of Probabilistic Linguistic Terms Sets. 2021 , 13, 764	4
181	Covering-based variable precision L-fuzzy rough sets based on residuated lattices and corresponding applications. 2021 , 12, 2407-2429	1

180	New measures of alliance and conflict for three-way conflict analysis. <i>International Journal of Approximate Reasoning</i> , 2021 , 132, 49-69	3.6	13
179	Three-way decisions based multi-attribute decision making with probabilistic dominance relations. 2021 , 559, 75-96		17
178	Common-possible concept analysis: A granule description viewpoint. 1		2
177	Effectiveness measure for TAO model of three-way decisions with interval set. 2021 , 40, 11071-11084		4
176	A Novel Functional Network Based on Three-way Decision for Link Prediction in Signed Social Networks. 1		3
175	Democratic three-way decisions based on voting mechanism. 1		1
174	A model of three-way approximation of intuitionistic fuzzy sets. 1		4
173	Three-Way Multi-Attribute Decision Making Based on Outranking Relations under Intuitionistic Fuzzy Environments. 2021 , 13, 1384		1
172	Class-specific information measures and attribute reducts for hierarchy and systematicness. 2021 , 563, 196-225		25
171	Three-way Conflict Analysis: Alliance, Conflict, and Neutrality Reducts of Three-valued Situation Tables. 1		2
170	Multi-granular Intuitionistic Fuzzy Three-Way Decision Model Based on the Risk Preference Outranking Relation. 1		1
169	3-Way Concept Analysis Based on 3-Valued Formal Contexts. 1		4
168	Different kinds of generalized rough sets based on neighborhoods with a medical application. 2021 , 2150086		15
167	A Multi-Criteria Three-Way Decision Making Method in a Picture Fuzzy Probabilistic Decision System. 1		0
166	A comprehensive model and computational methods to improve Situation Awareness in Intelligence scenarios. 2021 , 51, 1-24		3
165	The effectiveness of three-way classification with interpretable perspective. 2021 , 567, 237-255		9
164	Three-way decision based on third-generation prospect theory with Z-numbers. 2021 , 569, 13-38		18
163	A new classification and ranking decision method based on three-way decision theory and TOPSIS models. 2021 , 568, 54-85		12

162	Classification-level and Class-level Complement Information Measures Based on Neighborhood Decision Systems. 1		1
161	A development framework of granular prototypes with an allocation of information granularity. 2021 , 573, 154-170		1
160	Three-way data analytics: Preparing and analyzing data in threes. 2021 , 573, 412-432		3
159	A topological reduction for predicting of a lung cancer disease based on generalized rough sets. 2021 , 41, 3045-3060		9
158	Three-way Bayesian Confirmation in Classifications. 1		2
157	Multi-attribute group three-way decision making with degree-based linguistic term sets. <i>International Journal of Approximate Reasoning</i> , 2021 , 137, 69-93	3.6	2
156	Convex combination-based consensus analysis for intuitionistic fuzzy three-way group decision. 2021 , 574, 542-566		14
155	Information-theoretic measures of uncertainty for interval-set decision tables. 2021 , 577, 81-104		3
154	A three-way decision method based on fuzzy rough set models under incomplete environments. 2021 , 577, 22-48		8
153	A three-way decision based construction of shadowed sets from Atanassov intuitionistic fuzzy sets. 2021 , 577, 1-21		23
152	Automated granule discovery in continuous data for feature selection. 2021 , 578, 323-343		1
151	Granular-conditional-entropy-based attribute reduction for partially labeled data with proxy labels. 2021 , 580, 111-128		2
150	A decision-theoretic fuzzy rough set in hesitant fuzzy information systems and its application in multi-attribute decision-making. 2021 , 579, 103-127		15
149	Multi-attribute three-way decisions based on ideal solutions under interval-valued intuitionistic fuzzy environment. <i>International Journal of Approximate Reasoning</i> , 2021 , 138, 12-37	3.6	3
148	A novel multi-granularity three-way decision making approach in q-rung orthopair fuzzy information systems. <i>International Journal of Approximate Reasoning</i> , 2021 , 138, 161-187	3.6	6
147	Incremental construction of three-way concept lattice for knowledge discovery in social networks. 2021 , 578, 257-280		7
146	A novel approach of three-way decisions with information interaction strategy for intelligent decision making under uncertainty. 2021 , 581, 106-135		3
