

CITATION REPORT

List of articles citing

Subsequent infection with extended-spectrum
?-lactamase-producing Enterobacteriaceae in patients
with prior infection or fecal colonization

DOI: 10.1007/s10096-018-3275-x

European Journal of Clinical Microbiology and
Infectious Diseases, 2018, 37, 1491-1497.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
