

CITATION REPORT

List of articles citing

Early detection of multiple myeloma in primary care using blood tests: a case-control study in primary care

DOI: 10.3399/bjgp18x698357

British Journal of General Practice, 2018, 68, e586-e593.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
