

CITATION REPORT

List of articles citing

Beneficial postprandial lipaemic effects of interrupting sedentary time with high-intensity physical activity versus a continuous moderate-intensity physical activity bout: A randomised crossover trial

DOI: 10.1016/j.jsams.2018.05.022

Journal of Science and Medicine in Sport, 2018, 21, 1250-1255.

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
