

# CITATION REPORT

List of articles citing

Antenatal sildenafil treatment improves neonatal pulmonary hemodynamics and gas exchange in lambs with diaphragmatic hernia

DOI: 10.1002/uog.20415

Ultrasound in Obstetrics and Gynecology, 2019, 54, 506-516.

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
