

# Pervasive Arctic lead pollution suggests substantial growth modulated by plague, climate, and conflict

Proceedings of the National Academy of Sciences of the United States of America  
116, 14910-14915

DOI: [10.1073/pnas.1904515116](https://doi.org/10.1073/pnas.1904515116)
