

CITATION REPORT

List of articles citing

Evaluation of cardiac hypertrophy in the setting of sudden cardiac death

DOI: 10.1080/20961790.2019.1633761

Forensic Sciences Research, 2019, 4, 223-240.

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
