

CITATION REPORT

List of articles citing

A catalog of genetic loci associated with kidney function from analyses of a million individuals

DOI: 10.1038/s41588-019-0407-x
Nature Genetics, 2019, 51, 957-972.

Source: <https://exaly.com/paper-pdf/73060290/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
401	A million genotypes to find CKD-linked loci. 2019 , 15, 458		
400	Is Aging a Disease? A Geriatrician's Perspective. 2019 , 29, 126-127		
399	A genome-wide association study implicates multiple mechanisms influencing raised urinary albumin-creatinine ratio. 2019 , 28, 4197-4207		8
398	Is Aging Still a Disease? Perspectives from Geroscience. 2019 , 29, NP-NP		
397	Mapping eGFR loci to the renal transcriptome and phenome in the VA Million Veteran Program. 2019 , 10, 3842		36
396	In the Age of Genomics, Is it Still Worth it to Investigate Individual Loci?. 2019 , 74, 495-496		
395	Longevity-associated mitochondrial DNA 5178 C/A polymorphism modifies effect of aging on renal function in male Japanese health checkup examinees: an exploratory cross-sectional study. 2019 , 38, 12		1
394	Target genes, variants, tissues and transcriptional pathways influencing human serum urate levels. <i>Nature Genetics</i> , 2019 , 51, 1459-1474	36.3	122
393	The Urinary Excretion of Uromodulin is Regulated by the Potassium Channel ROMK. 2019 , 9, 19517		12
392	Hypothyroidism and Kidney Function: A Mendelian Randomization Study. 2020 , 30, 365-379		11
391	Genetic background and transplantation outcomes: insights from genome-wide association studies. 2020 , 25, 35-41		4
390	Epidemiology research to foster improvement in chronic kidney disease care. 2020 , 97, 477-486		7
389	Short or Long Sleep Duration and CKD: A Mendelian Randomization Study. 2020 , 31, 2937-2947		21
388	Causal associations between urinary sodium with body mass, shape and composition: a Mendelian randomization study. 2020 , 10, 17475		3
387	A multi-ethnic meta-analysis identifies novel genes, including ACSL5, associated with amyotrophic lateral sclerosis. 2020 , 3, 526		12
386	Genetic Determinants of Antibody-Mediated Immune Responses to Infectious Diseases Agents: A Genome-Wide and HLA Association Study. 2020 , 7, ofaa450		1
385	GADL1 is a multifunctional decarboxylase with tissue-specific roles in l-alanine and carnosine production. 2020 , 6, eabb3713		12

384	Functionally informed fine-mapping and polygenic localization of complex trait heritability. <i>Nature Genetics</i> , 2020 , 52, 1355-1363	36.3	45
383	Integration of GWAS Summary Statistics and Gene Expression Reveals Target Cell Types Underlying Kidney Function Traits. 2020 , 31, 2326-2340		6
382	The relationship between blood metabolites of the tryptophan pathway and kidney function: a bidirectional Mendelian randomization analysis. 2020 , 10, 12675		11
381	Cohort Profile: The Leipzig Research Center for Civilization Diseases-Heart Study (LIFE-Heart). 2020 , 49, 1439-1440h		8
380	Epigenome-wide association study identifies DNA methylation sites associated with target organ damage in older African Americans. 2021 , 16, 862-875		6
379	Impaired renal hemodynamics and glomerular hyperfiltration contribute to hypertension-induced renal injury. 2020 , 319, F624-F635		4
378	An investigation of causal relationships between prediabetes and vascular complications. 2020 , 11, 4592		10
