

# CITATION REPORT

List of articles citing

Impact of different surfactants and ultrasonication time on the stability and thermophysical properties of hybrid nanofluids

DOI: 10.1016/j.icheatmasstransfer.2019.104389  
International Communications in Heat and Mass Transfer, 2020, 110, 104389.

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
