

Spatiotemporal evolution of decoupling and driving for growth along the Belt and Road

Journal of Cleaner Production

277, 123272

DOI: [10.1016/j.jclepro.2020.123272](https://doi.org/10.1016/j.jclepro.2020.123272)

Citation Report

#	ARTICLE	IF	CITATIONS
1	How does manufacturing agglomeration affect green economic efficiency?. Energy Economics, 2020, 92, 104944.	12.1	251
2	The internal and external effects of air pollution on innovation in China. Environmental Science and Pollution Research, 2021, 28, 9462-9474.	5.3	25
3	Analyzing nonlinear impact of economic growth drivers on CO2 emissions: Designing an SDG framework for India. Energy Policy, 2021, 148, 111965.	8.8	146
4	Analysis of Carbon Dioxide Emissions From Road Transport Using Taxi Trips. IEEE Access, 2021, 9, 98573-98580.	4.2	20
5	Modeling and predicting city-level CO2 emissions using open access data and machine learning. Environmental Science and Pollution Research, 2021, 28, 19260-19271.	5.3	12
6	Empirical Analysis of Northeast Asia Regional Economic and Trade Relations and Research on Cooperation Countermeasures Based on Computer Software under the Background of "the belt and road initiative". Journal of Physics: Conference Series, 2021, 1744, 042100.	0.4	0
7	Where is the gray side of green growth? Theoretical insights, policy directions, and evidence from a multidimensional approach. Environmental Science and Pollution Research, 2021, 28, 63905-63930.	5.3	10
8	How renewable energy reduces CO ₂ emissions? Decoupling and decomposition analysis for 25 countries along the Belt and Road. Applied Economics, 2021, 53, 4597-4613.	2.2	70
9	Experimental investigation of a novel batch evaporation system coupled mechanical vapor recompression technology and steam heat storage technology. Innovative Food Science and Emerging Technologies, 2021, 68, 102616.	5.6	7
10	Analysis of CO2 emissions and energy consumption by sources in MENA countries: evidence from quantile regressions. Environmental Science and Pollution Research, 2021, 28, 38901-38908.	5.3	93
11	Beta decoupling relationship between CO2 emissions by GDP, energy consumption, electricity production, value-added industries, and population in China. PLoS ONE, 2021, 16, e0249444.	2.5	16
12	Digitalization and environment: how does ICT affect enterprise environmental performance?. Environmental Science and Pollution Research, 2021, 28, 54826-54841.	5.3	132
13	Does the Belt and Road Initiative Increase the Carbon Emission Intensity of Participating Countries?. China and World Economy, 2021, 29, 1-25.	2.1	21
14	Spatiotemporal patterns of industrial carbon emissions at the city level. Resources, Conservation and Recycling, 2021, 169, 105499.	10.8	67
15	Time-Varying Impact of Economic Growth on Carbon Emission in BRICS Countries: New Evidence From Wavelet Analysis. Frontiers in Environmental Science, 2021, 9, .	3.3	9
16	The Major Driving Factors of Carbon Emissions in China and Their Relative Importance: An Application of the LASSO Model. Frontiers in Energy Research, 2021, 9, .	2.3	13
17	How does the one belt one road initiative affect the green economic growth?. Energy Economics, 2021, 101, 105429.	12.1	54
18	Agricultural trade shocks and carbon leakage: Evidence from China's trade shocks to the Belt & Road economies. Environmental Impact Assessment Review, 2021, 90, 106629.	9.2	13
