

# CITATION REPORT

List of articles citing

Chiral liquid chromatography-mass spectrometry (LC-MS/MS) method development with  $\beta$ -cyclodextrin ( $\beta$ -CD) derivatized chiral stationary phase for the enhanced separation and determination of flurbiprofen enantiomers: application to a stereoselective pharmacokinetic study

DOI: 10.1039/d0nj01516d

New Journal of Chemistry, 2020, 44, 10334-10342.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
