

CITATION REPORT

List of articles citing

Vitamin D and SARS-CoV-2 virus/COVID-19 disease

DOI: 10.1136/bmjnph-2020-000089

BMJ Nutrition, Prevention and Health, 2020, 3, 106-110.

Source: <https://exaly.com/paper-pdf/76701748/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
102	COVID-19: the older adult and the importance of vitamin D sufficiency. 2020 , 9,		1
101	Responsibility for vitamin D supplementation of elderly care home residents in England: falling through the gap between medicine and food. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 256-262	6.7	2
100	Vitamin D to prevent COVID-19: recommendations for the design of clinical trials. 2020 , 287, 3689-3692		13
99	Clinical Impact Potential of Supplemental Nutrients as Adjuncts of Therapy in High-Risk COVID-19 for Obese Patients. 2020 , 7, 580504		10
98	Response regarding the importance of vitamin D and calcium among undergraduate health sciences students in Al Kharj, Saudi Arabia. 2020 , 15, 114		2
97	Association between vitamin intake and respiratory complaints in adults from the UK National Diet and Nutrition Survey years 1-8. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 403-408	6.7	1
96	Nutrition is key to global pandemic resilience. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 129-132	6.7	5
95	Is global dietary change an effective strategy to curb climate change?. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 121-122	6.7	0
94	Vitamin D in Prevention and Treatment of COVID-19: Current Perspective and Future Prospects. 2021 , 40, 632-645		22
93	A Basic Review of the Preliminary Evidence That COVID-19 Risk and Severity Is Increased in Vitamin D Deficiency. 2020 , 8, 513		59
92	Sickle cell disease and COVID-19: Atypical presentations and favorable outcomes. 2020 , 1, 338		7
91	Effects of diets, foods and nutrients on immunity: Implications for COVID-19?. 2020 , 45, 456-473		7
90	Food-based strategies for prevention of vitamin D deficiency as informed by vitamin D dietary guidelines, and consideration of minimal-risk UVB radiation exposure in future guidelines. 2020 , 19, 800-809		4
89	Is a vitamin D fortification strategy needed?. 2020 , 45, 115-122		13
88	COVID-19 breakthroughs: separating fact from fiction. 2020 , 287, 3612-3632		18
87	Greater risk of severe COVID-19 in Black, Asian and Minority Ethnic populations is not explained by cardiometabolic, socioeconomic or behavioural factors, or by 25(OH)-vitamin D status: study of 1326 cases from the UK Biobank. 2020 , 42, 451-460		168
86	COVID-19 mortality increases with northerly latitude after adjustment for age suggesting a link with ultraviolet and vitamin D. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 118-120	6.7	23

85	Dietary micronutrients in the wake of COVID-19: an appraisal of evidence with a focus on high-risk groups and preventative healthcare. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 93-99	6.7	31
84	Vitamin D and COVID-19: It is time to act. 2021 , 75, e13748		10
83	Pathogenesis-directed therapy of 2019 novel coronavirus disease. 2021 , 93, 1320-1342		22
82	COVID-19 disease and nutritional choices: How will the pandemic reconfigure our food psychology and habits? A case study of the Italian population. 2021 , 31, 399-402		8
81	Nutritional status of micronutrients as a possible and modifiable risk factor for COVID-19: a UK perspective. 2021 , 125, 678-684		36
80	Drivers of Infectious Disease Seasonality: Potential Implications for COVID-19. 2021 , 36, 35-54		21
79	No evidence that vitamin D is able to prevent or affect the severity of COVID-19 in individuals with European ancestry: a Mendelian randomisation study of open data. <i>BMJ Nutrition, Prevention and Health</i> , 2021 , 4, 42-48	6.7	15
78	Vitamin D supplements: The pharmacists' perspective. 2021 , 61, e191-e201		0
77	l-Cysteine Stimulates the Effect of Vitamin D on Inhibition of Oxidative Stress, IL-8, and MCP-1 Secretion in High Glucose Treated Monocytes. 2021 , 40, 327-332		9
76	Notable Developments for Vitamin D Amid the COVID-19 Pandemic, but Caution Warranted Overall: A Narrative Review. 2021 , 13,		9
75	The Covid-19 infection: An opportunity to develop systematic vitamin D supplementation in psychiatry. 2021 , 48, 102-102		3
74	Role of vitamin D supplementation in aging patients with COVID-19. 2021 , 152, 63-65		1
73	Vitamin D Status: Can It Affect the Risk of Infection and the Severity of COVID-19 Symptoms?. 2021 , 8, 1-8		1
72	When Mendelian randomisation fails. <i>BMJ Nutrition, Prevention and Health</i> , 2021 , 4, 1-3	6.7	2
71	Vitamin D status of Arab Gulf residents screened for SARS-CoV-2 and its association with COVID-19 infection: a multi-centre case-control study. 2021 , 19, 166		12
70	Vitamin D supplementation to prevent acute respiratory infections: a systematic review and meta-analysis of aggregate data from randomised controlled trials. 2021 , 9, 276-292		98
69	The Role of Nutrition in COVID-19 Susceptibility and Severity of Disease: A Systematic Review. 2021 , 151, 1854-1878		24
68	Association between vitamin D supplementation or serum vitamin D level and susceptibility to SARS-CoV-2 infection or COVID-19 including clinical course, morbidity and mortality outcomes? A systematic review. 2021 , 11, e043737		6

67	Critical care nutrition and COVID-19: a cause of malnutrition not to be underestimated. <i>BMJ Nutrition, Prevention and Health</i> , 2021 , 4, 342-347	6.7	1
66	Predicting Malnutrition Risk with Data from Routinely Measured Clinical Biochemical Diagnostic Tests in Free-Living Older Populations. 2021 , 13,		2
65	The Impact of Nutrition on the COVID-19 Pandemic and the Impact of the COVID-19 Pandemic on Nutrition. 2021 , 13,		8
64	Can Vitamin D Deficiency Increase the Susceptibility to COVID-19?. 2021 , 12, 630956		1
63	Vitamin D: What's new a year on from the COVID-19 outbreak?. 2021 , 46, 195-205		2
62	Vitamin D and coronavirus disease 2019 (COVID-19): rapid evidence review. 2021 , 33, 2031-2041		14
61	The link between COVID-19 and Vitamin D (VIVID): A systematic review and meta-analysis. 2021 , 119, 154753		65
60	Egg enrichment with vitamin D: The Sunshine Eggs projects. 2021 , 46, 332-338		0
59	Does vitamin D serum level affect prognosis of COVID-19 patients?. 2021 , 107, 264-267		5
58	Non-arteritic anterior ischaemic optic neuropathy sequential to SARS-CoV-2 virus pneumonia: preventable by endothelial protection?. 2021 , 14,		4
57	Implementation strategies for improving vitamin D status and increasing vitamin D intake in the UK: current controversies and future perspectives: proceedings of the 2nd Rank Prize Funds Forum on vitamin D. 2021 , 1-21		4
56	Current Evidence on Vitamin C, D, and Zinc Supplementation for COVID-19 Prevention and/or Treatment. 2021 , 18, em311		1
55	Covid-19, la piste de l'alimentation barrière. 2021 , 17, 26-30		1
54	Science-based policy: targeted nutrition for all ages and the role of bioactives. 2021 , 60, 1-17		3
53	Clinical aspects of SARS-CoV-2 infection and vitamin D : COVID-19 and the endocrine system: special issue for reviews in endocrine and metabolic disorders (Felipe Casaneuva, Editor in Chief) A. Giustina and JP Bilezikian, Guest Editors. 2021 , 1		1
52	Vitamin D and Platelets: A Menacing Duo in COVID-19 and Potential Relation to Bone Remodeling. 2021 , 22,		2
51	Vitamin D and Its Relationship with the Pathways Related to Thrombosis and Various Diseases.		0
50	Liver disease and COVID-19: The link with oxidative stress, antioxidants and nutrition. 2021 , 27, 5682-5699		4

49	Leveraging vibration of effects analysis for robust discovery in observational biomedical data science. 2021 , 19, e3001398	2
48	Vitamin D-independent benefits of safe sunlight exposure. 2021 , 213, 105957	3
47	Evaluation of emotional (depression) and behavioural (nutritional, physical activity and sleep) status of Turkish adults during the COVID-19 pandemic period. 2021 , 24, 942-949	7
46	Does Lockdown Decrease the Protective Role of Ultraviolet-B (UVB) Radiation in Reducing COVID-19 Deaths?.	2
45	Vitamin D supplementation to prevent acute respiratory infections: systematic review and meta-analysis of aggregate data from randomised controlled trials. 2020 ,	21
44	Could nutrition modulate COVID-19 susceptibility and severity of disease? A systematic review.	8
43	Avoidance of vitamin D deficiency to slow the COVID-19 pandemic. <i>BMJ Nutrition, Prevention and Health</i> , 2020 , 3, 67-73	6.7 41
42	. 2020 , 45,	5
41	Double COVID-19 Confirmed Case Fatality Rate in Countries with High Elderly Female Vitamin D Deficiency Prevalence.	1
40	COVID-19 and the "Film Your Hospital" Conspiracy Theory: Social Network Analysis of Twitter Data. 2020 , 22, e22374	33
39	Micronutrients for potential therapeutic use against COVID-19; a review. 2021 , 46, 9-13	2
38	Responsibility for vitamin D supplementation of elderly care home residents in England: falling through the gap between medicine and food.	
37	Double COVID-19 Confirmed Case Fatality Rate in Countries with High Elderly Female Vitamin D Deficiency Prevalence.	
36	COVID-19 and the Film Your Hospital Conspiracy Theory: Social Network Analysis of Twitter Data (Preprint).	
35	Vitamin D supplementation as an important factor in COVID-19 prevention and treatment: what evidence do we have?. 2020 , 66, 494-500	1
34	Can Vitamin D Positively Impact COVID-19 Risk and Severity Among Older Adults: A Review of the Evidence. 2020 , 3, 1-14	
33	Determination of Optimal Active Vitamin D Levels to Decrease COVID-19 Viral Replication and to Mitigate Its Secondary Inflammation.	
32	How is COVID-19 affected by weather? Meta-regression of 158 studies and recommendations for best practices in future research. 2021 ,	6
