

CITATION REPORT

List of articles citing

AI-based optimization of PEM fuel cell catalyst layers for maximum power density via data-driven surrogate mode

DOI: 10.1016/j.enconman.2019.112460

Energy Conversion and Management, 2020, 205, 112460.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
