Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
5	The effects of chemical mixtures on lipid profiles in the Korean adult population: threshold and molecular mechanisms for dyslipidemia involved.. <i>Environmental Science and Pollution Research</i> , 2022 , 1	5.1	4
4	Polycystic Ovary Syndrome and Environmental Toxins. 2022 , 80-91		
3	The Possible Impact of Fetal Exposure to Endocrine Disrupting Chemicals In Biochemical Parameters and Emotional Quotients in Children and Adolescents.		0
2	The effect of environmental estrogens exposure on oxidative stress and dyslipidemia, and their impact on insulin sensitivity.		0
